Corrections

- Corn Belt Wireless: First Round in which data was collected from this provider.
- Wireless Data Net: First Round in which data was collected from this provider.
- Cass Cable TV Inc.: One new wireless tower added to coverage.
- Comcast: New Cable data (For this submission, PCI will need to go in and separate out DOCSIS 3.0 data.)
- Full Choice Communications: Expanded footprint.
- Intelligent Computing Solutions: Updated wireless information.
- Level 3: Updated middle mile data
- Mediacom: Updated middle mile data
- Suddenlink: Small changes to coverage and number of customers serviced.
- tw telecom: Updated middle mile data.
- Removed 1,000+ Community Anchor Institutions from dataset, as they were not priority institutions that fit well into any particular category.
