14. Please describe any best practices/lessons learned that can be shared with other similar BTOP projects (900 words or less).

The most monumental lesson learned related to the WV BTOP grant is that of the Environmental Assessment process. Because of the scope, complexity, and geography of our project, this was a monumental task. Recommendation: Start this process early and have a "team" dedicated solely to this aspect of the overall environmental effort.

Another lesson learned is that of planning teams. Shortly into the planning and engineering the magnitude of the effort surfaced. We were a bit slow to induce planning and engineer teams into the process. After we originated these teams and implemented their operation, the entire process gained momentum. Recommendation: Begin with all engineers, planners, and stakeholders involved.
