Project Indicators (This Quarter)

1. Please describe significant project accomplishments completed during this quarter (600 words or less).

In this quarter the Alaska OWL continued activities apace. Here are the highlights of the quarter: The final OWL face-to-face training in a series of four took place in April

OWL leadership attended the annual SHLB (School, Health, Library Broadband) Coalition meeting in Washington DC

The project obtained a second year of sustainability funding from the Alaska State Legislature in the amount of \$761,000 for FY15

Large purchases of equipment and supplies included a more versatile bridge for the OWL videoconferencing network

OWL sponsored a community anchor institution meeting to discuss common interests on June 9th. It was attended by representatives of libraries, universities, health networks and schools. In addition the Alaska Deputy Commissioner of Commerce, the organizer of the Alaska Governor's Broadband Taskforce, was present for most of the meeting held in Anchorage.

The Network Manager and the Project Director attended the American Library Association annual conference where they were able to meet with the project's Federal Program Officer to review closeout procedures

Most OWL libraries received their notifications of E-rate funding before the beginning of the new fiscal year

2. Please provide the percent complete for the following key milestones in your project. Write "0" in the Percent Complete column and "N/A" in the Narrative column if your project does not include this activity. If you provided additional milestones in your baseline report, please insert them at the bottom of the table. Figures should be reported cumulatively from award inception to the end of the most recent reporting quarter. Please provide a narrative description if the percent complete is different from the target provided in your baseline plan (300 words or less).

3. Please describe any challenges or issues faced during this past quarter in achieving planned progress against the project milestones listed above. In particular, please identify any areas or issues where technical assistance from the BTOP program may be useful (600 words or less).

The results of our Invitation to Bid for broadband services meant that 18 of 67 OWL libraries changed internet service providers. The Network Manager spent most of his time in late May and June trying to smooth the transition.

4. Please provide actual total numbers to date or typical averages for the following key indicators, as specified in the question. Write "0" in the Total column and "N/A" in the Narrative column if your project does not include this activity. Unless otherwise indicated below, figures should be reported <u>cumulatively</u> from award inception to the end of the most recent reporting quarter. Please provide a narrative explanation if the total is different from the target provided in your baseline plan (300 words or less).

Project Indicators (Next Quarter)

1. Please describe significant project accomplishments planned for completion during the next quarter (600 words or less).

The Alaska Governor's Broadband Taskforce is holding a summit in the middle of July to discuss the state of broadband in Alaska and will be attended by the OWL team

Part of the OWL team will be taking a road trip to visit to 13 libraries and provide onsite training.

Staff will work on the final activities under federal funding but the program will continue under state funding

2. Please provide the percent complete anticipated for the following key milestones in your project as of the end of the next quarter. Write "0" in the second column if your project does not include this activity. Figures should be reported cumulatively from award inception to the end of the next reporting quarter. Please provide a narrative description if the planned percent complete is different from the target provided in your baseline plan (300 words or less).

^{3.} Please describe any challenges or issues anticipated during the next quarter that may impact planned progress against the project milestones listed above. In particular, please identify any areas or issues where technical assistance from the BTOP program may be useful (600 words or less).

It is expected that libraries that are transitioning between service providers will have technical issues. Due to the lack of professional IT presence in many of the rural locations there may be network downtime as they work to reconfigure their networks to work with the new service providers. The OWL team will assist in any way possible to make the transition as smooth as possible.
