**11b. Describe any challenges encountered with vendors or subrecipients.**

The Mapping Project team has encountered challenges with a few of the service providers who operate in Maine:

- The team has been unable to establish contact with HughesNet, Skycasters, and Cogent Communications for the purposes of executing an NDA and begin their participation in the project.
- Hussey Communications is a fixed wireless service provider who refuses to participate in the Mapping project. The Mapping Project team used data from outside sources including the FCC and provider's websites to construct an approximated coverage for Hussey Communications' fixed wireless services. This coverage was first included in the 1-October-2012 SBI data submission to NTIA and was included in the 1-April-2013 submission as well. This service coverage was also part of the data provided to the Maine Office of GIS for the Maine Broadband Availability website.
