11b. Describe any challenges encountered with vendors or subrecipients.

While we have exceeded some match budget line items (Subcontracts and other) these are offset in other line items (Personnel Salaries, fringe benefits and indirect costs) where we were under budget in match. In total we have met our match requirement. We have received additional in-kind match that is not recorded here. Note that the Unallocated Application Usage and Development Funds currently has an amount of (\$6,528) in the federal column and Unallocated Address File Funds currently has an amount of (\$5,160) in the federal column. We have always approached this schedule to reflect our actual obligations to date and making sure it ties to the federal budget for subcontractors. We had amendments to several of our subcontracts which added more funds to the contracts. When updating the schedule to reflect that updated obligation, it caused us to be over budget in Application Usage and Development and Address. The only way to make sure the schedule tied to the budget was to reflect this overage in the unallocated line. However, you can see that in total we are still well under budgeted in our obligations for subcontractors.
