U.S. DEPARTMENT OF COMMERCE	2. Award Or Grant Number
	66-50-M09072
Performance Progress Report	4. Report Date (MM/DD/YYYY)
	04-23-2012

1. Recipient Name	6. Designated Entity On Behalf Of:
One Economy Corporation	Guam

3. Street Address	8. Final Report?	9. Report Frequency
Territory of Guam, 1220 19th Street, NW, Suite 610,	◯ Yes	◉ Quarterly
	◉ No	◯ Semi Annual
5. City, State, Zip Code		◯ Annual
Washington, DC 20036-2405		◯ Final

7. Project / Grant Period Start Date: (MM/DD/YYYY)	7a. End Date: (MM/DD/YYYY)	7b. Reporting Period End Date:	9a. If Other, please describe:
09-01-2010	08-31-2015	03-31-2012	N/A

10. Broadband Mapping   10a. Provider Table

Number of Providers Identified	Number of Providers Contacted	Number of Agreements Reached for Data Sharing	Number of Partial Data Sets Received	Number of Complete Data Sets	Number of Data Sets Verified
6	6	0	6	6	6

10b. Are you submitting the required PROVIDER DATA by using the Excel spreadsheet provided by the SBDD grants office? ◯Yes ◉No

10c. Have you encountered challenges with any providers that indicate they may refuse to participate in this project? ◯Yes ◉No

10d. If so, describe the discussions to date with each of these providers and the current status

N/A

10e. If you are collecting data through other means (e.g. data extraction, extrapolation, etc), please describe your progress to date and the relevant activities to be undertaken in the future

No

10f. Please describe the verification activities you plan to implement

We hope to increase verification activities based on the speed test data collected from the public interactive map, as well as the data provided by NTIA with FCC speed tests.
We have not seen any FCC speed test uploaded to the FCC data management tool yet, so we would like to know if any data has been collected as of yet.

10g. Have you initiated verification activities? ◉Yes ◯No

10h. If yes, please describe the status of your activities

1. Validation - Provider Portal/Web Application has been released with enhancements supporting the collection and validation of Middle Mile and AWNS data.   All training documentation was updated and trainings offered to the provider for this data submission.

2. Verification - 3rd Party Source Material - As provider data is updated, we will continue to verify the coverage areas against the 3rd party sources and bring any discrepancies to the provider's attention to ensure the map represents their coverage accurately.

3. Crowd Sourcing/Town Hall Meetings - Based on feedback received from a town hall meeting, coverage was reduced for Guam Telecommunications Authority near Umatac's mayor's office. We reached out to the provider also to verify this feedback with them, but received no response in regards to the discrepancy identified.
The public interactive map is released and prior to the next data submission's efforts, feedback collected will be reviewed with each provider during the outreach phase.

10i. If verification activities have not been initiated please provide a projected time line for beginning and completing such activities

N/A

Staffing

10j. How many jobs have been created or retained as a result of this project?

3.25

10k. Is the project currently fully staffed? ○ Yes ◉ No

10l. If no, please explain how any lack of staffing may impact the project's time line and when the project will be fully staffed

The project was fully staffed during the survey. Since the survey is complete, there is no longer a need for all of the workers at the call center to be working. Currently, everyone that is necessary for the project's current deliverables are employed.

10m. When fully staffed, how many full-time equivalent (FTE) jobs do you expect to create or retain as a result of this project?

7.48

10n. Staffing Table

Job Title	FTE %	Date of Hire
QC Specialist	18	03/22/2009
Data Sourcing Manager	3	10/30/2009
Sr. Quality Manager, Technical Project Manager	3	08/10/2009
Cartographic Specialist	36	08/31/2009
Program Manager	52	10/19/2009
Database and Requirements Engineer, Sr. Web Designer	43	08/10/2009
Sr. Director, Finance and Administration	2	05/10/2009
Director of Finance and Administration	3	10/12/2009
Director of International Programs	52	06/01/2006
Program Manager	49	10/01/2006
Local Liaison	64	03/01/2011

Hardware / Software

10u. Has the project team purchased the software / hardware described in the application? ⦿Yes ◯No

10v. If yes, please list

The hardware/software has been invoiced and will now be able to be acquired to start the transition process, implementing the various portals and editing environment on-site. This will be planned following the Spring 2012 data submission, to ensure there is no impact on the deliverable.

10w. Please note any software / hardware that has yet to be purchased and explain why it has not been purchased

Dell PowerEdge R710 Dual Quad-core Intel Xeon X5550, 2.66gHZ, 24gb ram (600GB, 2 x 300GB 15K SAS), Dell PowerVault MD1000 with 5 600GB drives)3TB raw). Next day support 1 year, technical assistance 3 years, Windows Server 2008 Standard R2 (5 CALs) SQL Servie 2008 Licensing (4 sockets), ArcGIS Server Standard ($20K + $5K per additional core), ArcEditor - These will be purchased and configured once all funds are drawn down to support the acquistion.

10x. Has the project team purchased or used any data sets? ⦿Yes ◯No

10y. If yes, please list

BroadMap purchased Spectrum Holdings for Wireless providers data sets from Comseach for $2,000 and Wire center Boundaries from Pitney Bowes for $500. This was all to verify data exchange boundaries between provide coverage areas to review and search for discrepancies to be brought up and reconciled with the providers.

10z. Are there any additional project milestones or information that has not been included? ◯Yes ⦿No

10aa. If yes, please list

N/A

10bb. Please describe any challenge or obstacle that you have encountered and detail the mitigation strategies the project team is employing

None.

10cc. Please provide any other information that you think would be useful to NTIA as it assesses your Broadband Mapping Project

We would like to understand other measures of verification that other States/Territories are doing, success stories of those verification activities, stanadars or suggestions from the NTIA to ensure we're modeling an accurate representation of broadband.

11. Broadband Planning

11a. Please describe progress made against all goals, objectives, and milestones detailed in the approved Project Plan. Be sure to include a description of each major activity / milestone that you plan to complete and your current status
• Hire a local contractor to serve as the liaison to Guam -- Complete
• Plan, hold and document town hall meetings across Guam -- Planning complete; All 15 town halls have been conducted; documentation available at http://broadbandmapguam.blogspot.com/, and a final report has been completed
• Create, complete and analyze a phone survey of Guam regarding broadband usage and access. The survey has been conducted as we have met our goal of 1,000 participants. -- Completed
• Add the survey results to the broadband map -- Initial Version Completed, Updates Ongoing
• Synthesize the myriad sources of data -- Ongoing
• Create the Blueprint for Greater Adoption -- Started
• Continue ongoing community engagment -- Ongoing/Underway

11b. Please describe any challenge or obstacle that you have encountered and detail the mitigation strategies the project team is employing

Some of the data that One Economy received from the survey company was in a problematic format. One Economy was able to reformat it and proceed with the data analysis with minimal delays.

11c. Does the Project Team anticipate any changes to the project plan for Broadband Planning?   ◯ Yes   ⦿ No

11d. If yes, please describe these anticipated changes. Please note that NTIA will need to approve changes to the Project Plan before they can be implemented

N/A

Funding

11e. How much Federal funding has been expended as of the end of the last quarter? $0   11f. How much Remains? $0

11g. How much matching funds have been expended as of the end of last quarter? $0   11h. How much Remains? $0

Additional Planning Information

11j. Are there any additional project milestones or information that has not been included?

N/A

11k. Please describe any challenge or obstacle that you have encountered and detail the mitigation strategies the Project Team is employing

The last quarter has gone well.

11l. Please provide any other information that you think would be useful to NTIA as it assesses your Broadband Mapping Project
One Economy (OE) conducted a trip to Guam at the end of January to conduct a second round of community engagement. OE met with the local government, telecoms, media and hosted tow town hall meetings and a focus group with underserved communities. The town halls and meetings with the providers have led to revisions in the data submitted to the national broadband map. We have found a small number of un-served subdivisions in the southern towns of Umatac and Inarajan, which were previously listed as served by the island's ISPs. Additionally, we have found that access to broadband in Guam is not really a barrier to adoption, and that the real barrier to adoption is the cost. The populations who use broadband least are the poorest communities, often immigrants from Micronesia. OE continues to delve deeper into these findings to verify them and further explain them. We are also working hard to get communities around Guam to take the speed test, so we can compare advertised and typical speeds.

12. Certification: I certify to the best of my knowledge and belief that this report is correct and complete for performance of activities for the purpose set forth in the award documents.	
12a. Typed or Printed Name and Title of Authorized Certifying Official Samuel Gaillard Director of Management Info	12c. Telephone (area code, number, and extension) 202-393-0051 X1206
