Note: *

1. The estimated # of person served (proposed) is based on the assumption that every user of Workforce station will have a 2 hour slot and that on an average 75% of the total workforce station slot is used through out the county. It also assumes that on an average 75% of training capacity will be utilized.

2.The # of person served (proposed - Column S and T) is for the training numbers only and does not include PCC usage.

BTOP Public Computer Center and Sustainable Broadband Detailed Budget

Please complete the Detailed Budget, breaking out individual line items under each category heading (add rows to each section as necessary to accommodate your line items). Please ensure line item total columns in the "General" and "Detail" sections are equal for each line item (a cell with a yellow highlight indicates an inconsistency). Also, you may utilize the provided space for additional notes, if desired (there is also a Budget Narrative question in the application in which you will provide narrative detail on this budget).

Specifics needed for each cost category line item:

Personnel: For each position, list the number of positions, the location or geography of position, the job/task responsibilities for the position, the annual salary, and the percent of time a person filling the position will spend working on the proposed BTOP project. For lines with more than one position, the Quarters Employed field should represent number of quarters per person (*e.g.*, for two employees each working for one year, Quarters Employed should be 4 rather than 8).

Fringe: For each position, note the number of positions, the annual salary, the percent of time a person filling this position will spend working on the proposed BTOP project, and the fringe rate applicable to the position. For lines with more than one position, the Quarters Employed field should represent number of quarters per person (*e.g.* for two employees each working for one year, Quarters Employed should be 4 rather than 8).

Equipment: List all equipment units required for the project and provide program purpose. For each line item, note the number of units and the unit cost. The multiple of these two factors will yield the total for that line item. For example, an Applicant planning to buy 100 laptops at \$500/laptop would have a total line item cost of \$50,000. Again, although unit costs may include cents, once multiplied by the number of units, the result must be rounded to the nearest whole dollar. Clearly separate Applicant equipment and user equipment, as indicated in the detailed budget template. When providing the unit cost indicate whether the unit cost has been impacted by a discount and for software equipment list specific package names.

Travel: For each trip list the program purpose of the trip, destination city and the number of people traveling. For each line item (*e.g.*, trip), note the number of trips and the cost per trip. The multiple of these two factors will yield the total for that line item. For example, if the Applicant was accounting for 10 trips at \$25 per trip, the total cost would be \$250. The cost per trip should be justified on its own, *not* derived by dividing the line item total by the number of trips. Such a calculation will prompt further inquiry from the reviewers about justification for the trip cost. Rather, the *total* trip cost should be derived from the number of trips *times* the justifiable cost per trip.

Supplies: Separate supplies by item type, describing the program purpose or use. For each line item, note the number of units and the unit costs. The multiple of these two factors will yield the total for that line item. For example, an Applicant planning to buy 20 boxes of printer paper at \$30/box would have a total line item cost of \$600. Again, although unit costs may include cents, once multiplied by the number of units, the result must be rounded to the nearest whole dollar.

Other: Separate item types; for awareness program cost items, such as ads, separate ad types (radio, newspaper, etc) and include geography in which they will run.

Contractual: For each line item, identify the contractor and note the number of contracted hours of service.

and hourly rate, if applicable. For example, an Applicant planning to hire a technology consultant for 100 hours at a rate of \$40/hour would have a total line item cost of \$4,000.

Indirect: Provide the indirect rate and basis used. In the space provided at the bottom of the page, briefly explain the calculation used to derive the indirect costs (including the indirect rate and basis included in the basis). If a negotiated indirect cost rate agreement exists and is being used, please identify the cognizant agency.

The category subtotals for this Detailed Budget should correspond to the data provided in your SF-424A, and both the SF-424 budget and this Detailed Budget should match the Federal Grant Request and Total Match Amount provided on the Project Budget page of the application. Please review both budget attachments, the budget narrative in the application, and the Project Budget page for consistency before submitting the application. If you are submitting a PCC project via an SF-424C instead of an SF-424A, the sections of this Detailed Budget will not align directly with the categories of the SF-424C, but you should complete this Detailed Budget, allocating costs to the appropriate cost categories.

The data provided via this attachment will be subject to automated processing. Applicants are therefore required to provide this attachment as an Excel file, and not to convert it to a PDF prior to submitting a copy of their application on an appropriate electronic medium, such as a DVD, CD-ROM, or flash drive. Additionally, applicants should not modify the format of this file.

Dear Ms. Wells and Mr. Apperson,

The Bill & Melinda Gates Foundation is pleased to award the Arizona State Library, Archives and Public Records (ASL) a grant of \$576,330. As the lead applicant, the Arizona Office of Economic Recovery will be submitting a proposal on March 15, 2010 to the National Telecommunications and Information Administration (NTIA) under the Broadband Technologies Opportunity Program's (BTOP) Public Computer Centers funding category. We understand ASL will be a partner in the Arizona Office of Economic Recovery's BTOP proposal. The foundation's grant funds are to be used to match the BTOP project costs for creating Economic Growth Centers in libraries statewide that provide access to workforce development, employment and small business resources and training.

The foundation's grant is contingent on the Arizona Office of Economic Recovery receiving a BTOP award from NTIA and on the execution of a grant agreement between ASL and the foundation. The grant will be paid in two equal installments to the ASL. The first payment will be disbursed shortly after Arizona Office of Economic Recovery's receipt of an official BTOP award notice, and the second and final grant payment will be disbursed approximately one year after the first payment.

In addition to committing grant funds to support NTIA's matching requirements for BTOP, the foundation is awarding an additional \$150,000 for E-rate application training and support for local libraries participating in the BTOP project. These funds are intended to raise participation rates in the federal E-rate program to create a sustainable source of funding for recurring connectivity costs. These additional grant funds are also contingent upon the Arizona Office of Economic Recovery receiving a BTOP award from NTIA and a fully-executed grant agreement with the ASL and the foundation.

We are pleased to support ASL and the Arizona Office of Economic Recovery in their application to NTIA and their efforts to meet community needs through high-quality technology and broadband Internet access in Arizona.

Sincerely,

Allan C. Golston

Dear BTOP Evaluator,

On behalf of the Arizona State Library I wholeheartedly extend our support for the AZ Job Help @ Your Library grant application from the Arizona Governor's Office of Economic Recovery. We will provide a total match of \$25,000.00 toward this grant during the first year.

AZ Job Help @ Your Library will provided much-needed job assistance to Arizona residents facing the challenges of these uncertain economic times. Through online resources, instructor-led training and collaboration with Workforce Development initiatives, this grant will help Arizonans retrain, apply for job assistance and explore entrepreneurship opportunities.

We are committed to the success of this grant and to work with the Governor's Office of Economic Recovery on successful implementation.

Sincerely,

GladysAnn Wells
