U.S. Department of Commerce Broadband Technology Opportunities Program Authentication and Certifications

- 1. I certify that I am the duly Authorized Organization Representative (AOR) of the applicant organization, and that I have been authorized to submit the attached application on its behalf.
- 2. I certify that I have examined this application, that all of the information and responses in this application, including certifications, and forms submitted, all of which are part of this grant application, are material representations of fact and true and correct to the best of my knowledge, that the entity(ies) that is requesting grant funding pursuant to this application and any subgrantees and subcontractors will comply with the terms, conditions, purposes, and federal requirements of the grant program; that no kickbacks were paid to anyone; and that a false, fictitious, or fraudulent statements or claims on this application are grounds for denial or termination of a grant award, and/or possible punishment by a fine or imprisonment as provided in 18 U.S.C. §1001 and civil violations of the False Claims Act.
- 3. I certify that the entity(ies) I represent have and will comply with all applicable federal, state, and local laws, rules, regulations, ordinances, codes, orders and programmatic rules and requirements relating to the project. I acknowledge that failure to do so may result in rejection or deobligation of the grant or loan award. I acknowledge that failure to comply with all federal and program rules could result in civil or criminal prosecution by the appropriate law enforcement authorities.
- 4. I certify that the entity(ies) I represent has and will comply with all applicable administrative and federal statutory, regulatory, and policy requirements set forth in the Department of Commerce Pre-Award Notification Requirements for Grants and Cooperative Agreements ("DOC Pre-Award Notification"), published in the Federal Register on February 11, 2008 (73 FR 7696), as amended; DOC Financial Assistance Standard Terms and Conditions (Mar. 8, 2009); the Department of Commerce American Recovery and Reinvestment Act Award Terms (Apr. 9, 2009); and any Special Award Terms and Conditions that are included by the Grants Officer in the award.
- I certify that any funds awarded to the entity(ies) I represent as a result of this application will not
 result in any unjust enrichment of such entity(ies) or duplicate any funds such entity(ies) receive
 under federal universal service support programs administered by the Universal Service
 Administrative Corporation (USAC).
- 6. I certify that the entity(ies) I represent has secured access to pay the 20% of total project cost or has petitioned the Assistant Secretary of NTIA for a waiver of the matching requirement.

Employment History

Chief Information Officer, City of Chicago; and Commissioner of Department of Innovation and Technology

Feb 2006 - Present

Phone (312)742 0667 Email hbhatt@cityofchicago.org

- Managed strategic technology investments of \$100 Million annually in OPEX and CAPEX for the City of Chicago while leading a dynamic team of 300+ employees and consultants.
- Created Innovation Center in the City to focus on improving City services by enhancing user experience through design research methodologies used in the private sector.
- Negotiated Citywide infrastructure outsourcing contract generating a savings of 46% (34 Million over 7.5 years) for the City through reduced costs
- Built City's first Disaster Recovery site
- Improved average City employee productivity by introducing electronic collaboration tools
- Improved worker efficiency by 40% by introducing Mobile applications for field workers.
- Put Green IT Performance Measures to make IT more environmentally friendly. Reduced over \$3M in operating expenses and over 2M kWH energy use.
- By strategically redesigning City's premier website, and payment infrastructure, received over \$100M in online payments for the first time in City's online history.
- Developed City's Official Tourism site 'Explorechicago.com' for 46 Million tourists visiting the City.
- Built a Disaster Recovery center for City's enterprise technology systems first in the City
- As co-chair of Mayor's Council of Technology Advisors, lead initiatives to
 - o bridge technology talent gap in the Chicagoland area,
 - improve economic development of Chicagoland area
- Lead efforts of Citywide Digital Excellence by initiating programs, such as,
 - Digital Demonstration Communities
 - An internal Digital Excellence Action Agenda by leading a cross-departmental team
 - Managed grants for Community technology centers
- With focused efforts on Technology education in the City, proposed and opened a new Technology Career High School in Chicago with the support of over 100 businesses and education institutions.
- Led the efforts for the technology section presentation for Chicago's bid for 2016 Olympics and Paralympics games.

Deputy Director, Traffic Management IT & Planning, OEMC May 2005 – Jan 2006

- Lead a team of professional Engineers and Consultants to implement innovative traffic planning initiative,
 e.g. turning key city streets from one-way streets to two-way streets and vice versa, implementing right-turn arrows at key downtown locations for reducing traffic congestion.
- Lead a team of ITS (Intelligent Transportation Solutions) professionals, Database and GIS consultants to
 implement advanced technological solutions for traffic management. These solutions include new traffic
 adaptive system along lake shore drive, city congestion map using cell phone hand-off signals, transit priority
 signals to encourage taking public transportation & system integration to centrally manage traffic
 technologies from the Operation Center.

Manager, Software Technology, Chicago Police Department 2003 – April 2005

- Lead development of CLEAR (Citizens and Law Enforcement Analysis and Reporting) system, an on line
 transaction processing system for criminal justice personnel which helped the police department reduce
 overall crime rate in the city by 13%. Return on the investment of \$30 million was achieved within 18 months
 by eliminating data entry and other clerical jobs, redeploying officers effectively and reducing incident
 reporting and investigation time.
- Deployed CLEAR in Wireless environment working with 8 different entities like Panasonic, Verizon, SBC, Cisco, and Oracle. Mobile CLEAR uses Verizon's 1xRTT Cellular network to transmit data at a burst speed of 144 KBPS. This will reduce processing time for an arrest by 50% and will also increase visibility of Police as they will be completing their reports in the field as opposed to being in the station.

Project Manager / Senior Consultant, Oracle Corporation

1999 - 2003

 Built a state-of-the-art XML interface between the Mobil case reporting front end and the CLEAR (Chicago PD Criminal Transaction Database) system allowing officers to take incident reports through a Mobil system in the field. This reduced the gap between crime reporting and investigation, effectively increasing the crimesolving rate and increased the overall efficiency of officers by 20%.

System Analyst, Nextgen Technologies, Inc.	1998 – 1999
System Analyst, Tata Consultancy Services (TCS), India	1997 – 1998
Senior Programmer, AIMS Group, India	1993 – 1997

Matthew Guilford

Education

Bachelor of Arts – Biological Basis of Behavior (Behavioral Neuroscience) and History University of Pennsylvania, Philadelphia, PA

Employment History

City of Chicago Department of Innovation and Technology, Chicago, IL

Program Manager, Digital Excellence and Innovation 2008 to Present

Responsibilities include top-level management of efforts across 46 departments to increase digital excellence – access to and use of technology – among Chicago residents and communities; developing "digital excellence demonstration communities" of the 21st century where individuals and organizations in underserved neighborhoods are saturated with technology; long-term strategic planning for Chicago's broadband communications infrastructure that addresses the needs of government and external stakeholders; launching a new online clearinghouse of technology resources provided to residents by City departments, sister agencies and non-profit organizations.

Responsibilities also include leading the City's Innovation Center – first program in a major American city focused on identifying new ways of interacting with residents and creating a culture of innovation among public servants; developing new user-centered services and processes to address public challenges; and deploying new "open innovation" tools to engage residents and front-line staff as problem solvers and sources of innovations.

Project Manager, Community Broadband 2007-2008

Responsibilities included negotiating with private-sector service providers for a potential wireless project; developing local government policy and regulatory strategies to increase broadband access and adoption; and analyzing various business models for provision of broadband services to urban areas.

Rhode Island Economic Development Corporation, Providence, RI

Research Analyst, Science and Technology 2005-2007

Responsibilities included participating in business development, marketing and communications functions for the Rhode Island Wireless Innovation Networks project; building and negotiating value-adding relationships with international and domestic business partners; and promoting the project to organizations interested in piloting new wireless technologies and services.

Responsibilities also included supporting the Business Innovation Factory, a non-profit organization that fosters business model innovation among its public- and private-sector members; identifying strategies for developing, commercializing and deploying innovative products, processes and services; communicating best practices for gaining insights into consumer needs; and performing marketing and knowledge management functions for projects.

University of Rhode Island, Kingston, RI

Project Assistant 2005

Responsibilities included coordinating the Rhode Island Science and Technology Advisory Council, the State of Rhode Island's primary entity for technology economic development policy planning.

Responsibilities also included providing policy and data analysis in support Rhode Island's successful proposal for research infrastructure funding from the National Science Foundation's Experimental Program to Stimulate Competitive Research.

Employment History

City of Chicago - Department of Family and Support Services, Chicago, Illinois

Project Manager January 2009 to Current

Serve as a Project Manager for the department's IT projects. Function as the liaison between Family & Support Services and the Department of Innovation Technology for IT projects that originate from DoIT. Assist in overseeing Information Technology staff and operations to ensure established goals and objectives are achieved. Assist in managing the department's LAN/WAN environment/computer hardware equipment ensuring system security, user access, and software availability. Administer the department's web page content, ensuring that the content is current and updates are posted. Complete reports that assist the finance unit with the state's Area Plan budgets. Troubleshoot systems and hardware problems and resolve or coordinate with vendors for resolution.

City of Chicago - Department of Senior Services, Chicago, Illinois

Project Manager May 2000 to December 2008

Serve as Project Manager for the department's IT projects. Function as the liaison between Senior Services and the Department of Innovation Technology for IT projects that originate from DoIT. Oversee Information Technology staff and operations to ensure established goals and objectives are achieved. Manage the department's LAN/WAN environment/computer hardware equipment ensuring system security, user access, and software availability. Administer the department's web page content, ensuring that the content is current and updates are posted. Design, code, test, implement, and administer department specific ad hoc reports created in Business Objects. Prepare divisional or program operating budgets and monitor expenditures. Direct staff engaged in the review and analysis of business operations for the development of new applications. Troubleshoot systems and hardware problems and resolve or coordinate with vendors for resolution.

City of Chicago - Office of Budget and Management, Chicago, Illinois

Computer Applications Analyst January 1993 to April 2000

Responsible for the maintenance and execution of all data systems to support a \$5.2 billion dollar budget with 53 city departments, agencies and commissions. Maintained a mainframe computerized budget preparation system for use with various auxiliary management reporting citywide. Annually produced four budget documents, preliminary budget reports, personnel control reports that are used to track and monitor and project departmental expenditures and revenues. Coordinated the design and writing of data programs for various groups within budget. These reports provided the information needed to calculate the budget for the city. Assisted with map production of Capital Improvement Projects by wards, planning districts, community areas, Senate districts and Congressional districts using MapInfo and ArcView.

MARY DEMPSEY, COMMISSIONER, CHICAGO PUBLIC LIBRARY

Mary Dempsey has served as Commissioner of the Chicago Public Library since 1994. The Library is comprised of 1,200 employees in 79 neighborhood locations. Under her direction, 41 new libraries have been constructed, nine of which are LEED certified. Planning and design for 16 additional libraries commenced in 2009. Under her direction, all libraries have been equipped with state of the art technology including free desktop and WiFi access to the Internet; access to more than 80 online databases; rich book collections; and innovative reading and educational programs. The Chicago Public Library is operating in year 4 of its 5 year strategic plan, CPL 2010. Mary holds a B.A. From St. Mary's University, an M.L.S. from the University of Illinois Urbana-Champaign, and a J.D. from DePaul University. She serves as Chair of the Board of Trustees of DePaul University and is past Chair of the Urban Libraries Council.

KARIM ADIB, DIRECTOR OF LIBRARY AUTOMATION, CHICAGO PUBLIC LIBRARY

Karim Adib has been working in the IT industry for over 20 years. Mr. Adib joined the Library's senior staff team in 2002 and has since been responsible for the Library's technology at all 79 locations across the City of Chicago. Mr. Adib has brought his knowledge of well established technologies and practices from the business world to the Library to support the Library's goal to completely rebuild all its technologies in a few short years. During his tenure at the Library, Mr. Adib has led many projects including the creation of a citywide Cisco based network, a multi service WiFi network, doubling the number of desktop computers, completely rebuilding the institutions servers and applications and developing sophisticated software solution to meet the needs of Library patrons and staff. Mr. Adib began his career at the University of Missouri before he was recruited by United Data System to migrate the company from mainframe systems to client server architecture. A significant accomplishment considering United Data System was the third largest commercial user of IBM mainframe computers. After United Data Systems was merged in to Sprint Corporation, Mr. Adib served as Manager of Innovative Technologies where he investigated advanced technologies in computing and networking and created business plans for the senior executives of the company. Mr. Adib is also the founder of Maxtel International Corporation which was a technology architecture and large systems implementation consulting company. Mr. Adib holds a B.S. with honors and distinction in Computer Science and Mathematics from the University of Missouri at Kansas City.

MARY ELLEN CARON, PH.D., COMMISSIONER, DEPARTMENT OF FAMILY AND SUPPORT SERVICES

Mary Ellen Caron, Ph.D., was named commissioner of the new Chicago Department of Family and Support Services in January of 2009 by Mayor Richard M. Daley. The new Chicago Department of Family and Support Services (FSS) is a consolidation of several of the City's former human service departments and works to provide a continuum of support for Chicago's vulnerable residents, beginning at birth through the senior years. From 2004 until December of 2008, Dr. Caron served as commissioner of the Chicago Department of Children and Youth Services, now part of FSS, which provided community-based services that promoted the well-being and successful development of Chicago's youngest residents, while strengthening families and their communities. Previously, Dr. Caron was a special assistant to the chief executive officer of the Chicago Board of Education, where she leveraged her administrative background to improve Chicago's public schools. She opened new schools, closed poorperforming ones and acted as liaison for operations and oversight of professional-development schools. Dr. Caron is the founding principal of the Frances Xavier Warde School, an elementary school with over 700 students in downtown Chicago. Under her leadership, the Department of Children and Youth Services became the recipient of the Gold Quill Award of Excellence – 2006. She also serves in the Prevent Child Abuse Task Force for the City of Chicago and most recently, she received the Women's Initiative Child Link Award, for connecting the youth of Childlink to homeless counseling and summer mentoring programs.

KAREN TAMLEY, COMMISSIONER, MAYOR'S OFFICE FOR PEOPLE WITH DISABILITIES

Karen Tamley was appointed Commissioner of the City of Chicago's Mayor's Office for People with Disabilities in 2005 where she manages a department of 38 staff with a \$5.7 million budget. MOPD provides direct services to Chicago residents, permits building plans for accessibility, advises on disability policy and legislation, and leads citywide accessibility initiatives including compliance with federal, state and local laws. She worked as Director of Programs at Access Living of Metropolitan Chicago from 2000 to 2005, where she was responsible for implementation of programs and services of a not-for-profit Center for Independent Living providing advocacy and services to people with all types of physical, sensory and mental disabilities. Responsible for a 36 person staff that includes administration of private and government grants, program evaluation and oversight of agency service and advocacy initiatives. She was Housing Policy Coordinator at Access Living from 1996 to 1999 where she worked to increase the availability of affordable, accessible, integrated housing for people with disabilities at the local, state and national levels, through advocacy, policy reform, legislative initiatives and community organizing. Tamley established working relationships with leadership of government entities including Chicago Department of Housing, Chicago Housing Authority, CHAC and the U.S. Department of Housing and Urban Development ("HUD"). Tamley worked for Atlantis Community, Inc. in Denver, Colorado from 1992 to 1996 where she forged a partnership with two of Colorado's largest banking institutions to develop a national model home and consumer loan program for low-income people with disabilities. Designed a homebuyer education program and provided pre-mortgage counseling to over 300 individuals with disabilities seeking first-time home ownership. On a national level, she provided technical assistance to banks, disability organizations, government entities and other not-for-profits on the creation of lending products

TERRY MAZANY, PRESIDENT AND CEO, CHICAGO COMMUNITY TRUST

Terry Mazany is president and CEO of The Chicago Community Trust. Mazany was selected as just the fifth executive in The Chicago Community Trust's ninety-year history in 2004. In preparation for this appointment, he served as the Trust's chief operating officer in October 2003. Mazany joined the Trust in 2001 as director and senior program officer for the Education

Initiative of The Trust. Before joining the Trust, Mazany served a distinguished career in public school administration, leading improvement efforts in school districts in Michigan and California. He served as the associate superintendent for curriculum and instruction for the Oakland Unified School District. He was selected for this position in Oakland after working three years for the State of California's acclaimed California School Leadership Academy—a State agency providing leading edge training and development to administrators and public schools throughout California. Terry has earned a masters degree in Anthropology and a masters degree in Business Administration, with an emphasis on organizational change, from the University of Arizona. He applied this knowledge of organizational change and continuous improvement first in the Detroit Public Schools, and then in districts throughout the country including Chicago, Baltimore, and San Francisco, as well as many smaller school districts. He consulted directly with hundreds of schools and teachers, developing powerful models of curriculum and assessments within classrooms and pioneering models for whole school change. His work in public education was an extension of his experience in a national project for public sector performance improvement that was the precursor to what became known as re-inventing government. Preceding his work in the public sector, Mazany enjoyed his first career as an archaeologist and dendrochronologist.

JULIA STASCH, VICE PRESIDENT HUMAN AND COMMUNITY DEVELOPMENT, THE MACARTHUR FOUNDATION

Julia Stasch is Vice President of the Program on Human and Community Development of the John D. and Catherine T. MacArthur Foundation. She is responsible for all aspects of the Foundation's grantmaking in the U.S., particularly related to issues of people and place – community and economic development, affordable housing and urban and regional policy - as well as system reform in public education, juvenile justice and mental health; and policy research on cross-cutting social and economic issues. Prior to joining the Foundation, she worked for the City of Chicago, first as Commissioner of the city's Department of Housing and most recently as Chief of Staff to Mayor Richard M. Daley. As Commissioner she led a process resulting in the city's commitment to a \$1.3 billion five-year plan for affordable housing. As Chief of Staff, one of her significant accomplishments was the design and negotiation of the \$1.5 billion plan for transformation of public housing in Chicago. From 1996 to 1997 she was President and Chief Executive Officer of Shorebank Chicago Companies where she was responsible for Chicago operations of Shorebank, including South Shore Bank, the nation's first community development bank. In 1977 Stasch was one of the first four employees of the Chicago-based real estate development firm Stein & Company. When she left in 1996 as President and Chief Operating Officer, the staff numbered 220 and projects included the Metcalfe Federal Building, Chicago's United Center, and expansion of McCormick Place. While at Stein and Company, she became known nationally for her work to include women and minorities in the construction industry. During the first Clinton Administration, Stasch served as Deputy Administrator of the General Services Administration in Washington, a 20,000-person agency responsible for management of government-wide building construction, leasing, and management. Earlier in her career, she was a Vista volunteer and a teacher in the Chicago public school system. Stasch was the founding President of the Board of the Women's Issues Network, and previously served on the Board of Directors of the Women's Business Development Center and Leadership Greater Chicago. She is a member of the Economic Club, the Executives Club, and The Chicago Network and serves on the Mayor's Council of Technology Advisors as well as the board of directors of the Chicago Architecture Foundation. She also served as the chair of the Mayor's Advisory Council on Closing the Digital Divide. Stasch is a summa cum laude graduate of Loyola University, and has a master's degree from the University of Illinois at Chicago.

LINDA J. KAISER

PROFESSIONAL EXPERIENCE

Chicago Housing Authority Executive Vice President of Resident Services Managing Director of Resident Services

April 2007 to present

Responsible for management of the resident services division with over 90 staff covering Research, Reporting and Communications; the FamilyWorks program; Workforce Development Initiatives (e.g. transitional jobs, customized training and contextualized literacy); Housing and Community Outreach (Relocation); Youth Opportunities; Senior Services; and other resident-oriented initiatives for the Authority. Special emphasis on employment, education, support services programming and implementing an Authority-wide work requirement in 2009.

Chicago Workforce Board Executive Director

September, 2000 to April 2007

The Chicago Workforce Board is a private-sector led Board providing leadership on critical workforce and economic issues in Chicago, oversight on a wide variety of employment, training, and career education initiatives in the City and region, and access to high-quality services for Chicagoland firms and residents.

- Established first Workforce Investment Board supported by an independent non-profit organization in Chicago. Responsible for all aspects of agency start up; financial management and fund-raising; compliance with relevant federal, state and local legislation and regulatory requirements; hiring and supervising all staff; achieving performance outcomes and strategic objectives of the Board. Raised over \$13 million in six plus years for Board operations and projects. No fiscal or programmatic audit findings during tenure.
- Launched industry specific workforce initiatives in six key sectors—Healthcare; Manufacturing; Transportation, Warehousing and Logistics; Technology, Finance and Insurance; and the Service Industries (Hotels, Restaurants, Retail and Customer Service).
- Initiated partnerships to bridge geographic disparities between where jobs are and where people live, generate economies of scale, coordinate responses to the needs of firms and industries, address specific community issues including targeting firms (i.e. small businesses) and demographic groups (i.e. disabled youth and adults, limited-English speakers).

STEVEN A. DORNER

PROFESSIONAL EXPERIENCE

District Director Technology Services City Colleges of Chicago (CCC), Chicago, Illinois

Summer 2007 to present

Responsible for the management of the District wide Telecommunications department within the Office of Information Technology (OIT) to include Centrex lines, high-speed data circuits, cellular services, long distance, voicemail, associated phone moves, adds and changes. Also provide management for the implementation of associated infrastructure projects as assigned. Specific achievements:

- Develop and monitor an annual operating budget of over \$2 million to deliver and support the telecommunications department infrastructure and associated technology for the District. Developed and conducted a full Telecommunications audit that has saved the District over \$150,000 in the first year. Reestablished tax exemption district wide and realized a cost avoidance of approximately \$200,000 annually which equates to approximately a 10% reduction on current invoices.
- Negotiated the AT&T Master Services Agreement for all Telecommunications services which provided an overall operating
 cost reduction of over \$220,000 annually. Obtained an unprecedented Centrex line range billing where Centrex lines may be
 reduced without penalty. Assisted in the management of deploying the OpteMAN Phase II project which increased our
 Learning Center and Satellite campuses bandwidth from 3Mbps to 20Mbps.
- Provided project management for the Emergency Notification System called CCC Alert; a system that notifies CCC students, faculty and staff about emergency situations via phone, email or text. Responsibilities included RFP evaluation, data record format, PeopleSoft SA - HR integration, marketing material development and distribution, associated policies and system training.

Deputy Chief Information Officer

2004 to Summer 2007

Chicago Public Schools, Chicago, Illinois

Managed the Office of Technology Services (OTS) infrastructure management professionals and consultants, developing the overall networking services, operational strategies and support as well as overseeing and leading in the implementation of district-wide networking and data center initiatives. Specific achievements:

- Developed and monitored annual operating budget of \$27 million to deliver and support the networking and computing
 infrastructure and associated technology.
- Managed deployment of 5 thousand Cisco switches and routers for wired and wireless technologies supporting over 89,000
 active connections. Managed telecommunication operations of 16 thousand Centrex lines, 600 PBX systems, 35 thousand
 sets, 100 Gigabit Ethernet circuits and 800 T-1 circuits.
- Led the design and procurement of voice-over-IP (VoIP) telecommunication system including development of the RFP, scope of services, service level agreements, contract terms, return on investment, systems architecture and collateral network impact assessment.

WAN and Network Services Manager

1998 to 2004

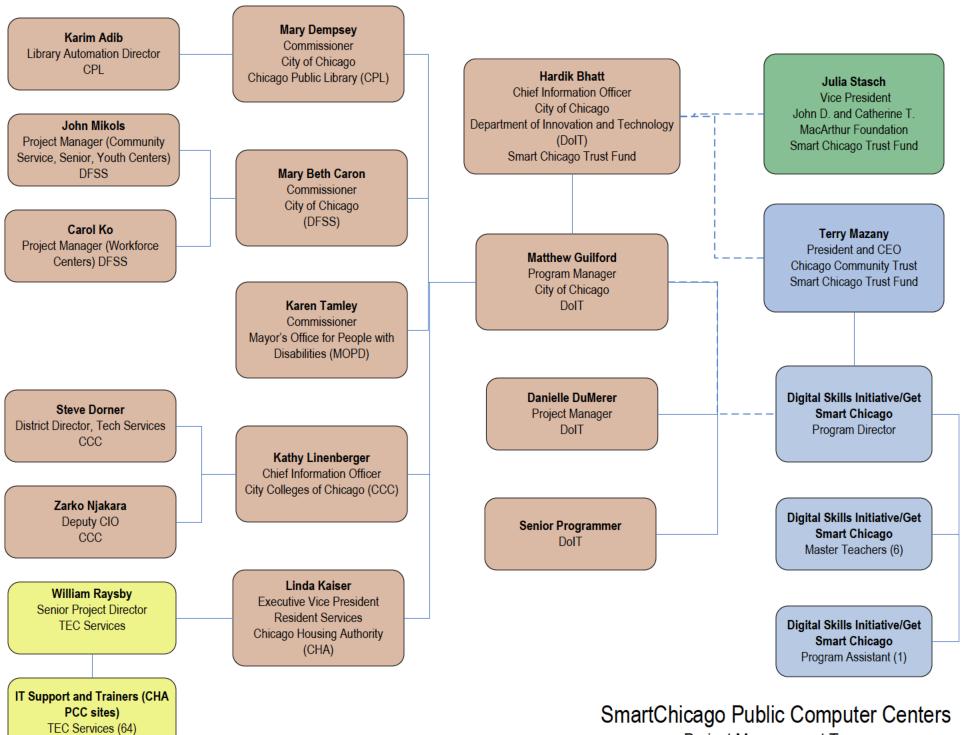

Chicago Public Schools, Chicago, Illinois

Engaged by CPS as WAN engineer and rapidly progressed to WAN manager and then to Network Services Director in charge of LANs, the WAN, telecommunications systems and services, and data center operations. Specific achievements:

- Planned and managed the infrastructure deployment of a \$49 million strategic initiative to replace the 40 year old mainframebased student information system through integration of best of breed packaged applications supporting student information services, curriculum and instructional management, and a specialized services management system.
- Designed and planned migration of the District's directory services from SunOne to Microsoft's Active Directory including basic provisioning for employees, contractors and students to build the foundation for the next generation of identity management.

EDUCATION

- Certificate in Project Management (PMI) DePaul University
- Bachelor of Science in Electronics Engineering Technology DeVry University

RE: Smart Chicago Public Computer Centers

To Whom It May Concern:

We are happy to partner with the City of Chicago to execute the SmartChicago Public Computer Center project, which will increase access to broadband for vulnerable populations, improve accessibility to broadband for people with disabilities, build digital skills through customized technology training, and create jobs at all skill and experience levels.

The Chicago Community Trust is the region's community foundation, built by generations of Chicagoans to support a safe, healthy and productive future for every resident. Since 1915, generous donors have invested their charitable dollars with the Trust to be transformed, through careful stewardship and deep community knowledge, into positive local impact. In 2008, the Trust and its donors granted more than \$100 million to sustain effective, innovative programs throughout metropolitan Chicago.

The availability of broadband in Chicago, enhanced public access to technology, and a strategic investment in supporting a comprehensive local broadband adoption campaign will open the door to a range of innovative opportunities to improve the quality of life for thousands of Chicago residents.

We applaud the federal government's leadership in confronting this critical issue and we believe that the SmartChicago project – if funded and replicated – is a critical part of the city's and this region's ability to contribute to national prosperity and global competitiveness.

To help catalyze new investment in Smart Chicago, The Chicago Community Trust is leading the development of the Smart Chicago Trust Fund. If the City of Chicago's BTOP applications are successful, the Fund will be the recipient of a portion of the Public Computing and Broadband Adoption funds and will re-grant them to their

Page 2 March 11, 2010

managing entities. For the SmartChicago PCC project, the Trust will also house the Digital Skills Initiative, Get Smart Chicago! campaign, and other program-level activities.

We will work with the City of Chicago and all partner organizations to implement the Smart Chicago Public Computer Centers project and provide more Chicagoans with Internet access and technology training they need to compete in the 21st Century. The Trust will provide \$13,280 in cash matching funds that will be used to purchase equipment for the Program Director and Master Teachers.

Please feel free to contact me with any questions. Thank you for your consideration of this important project.

Sincerely,

Terry Mázany

Mr. Hardik Bhatt Chief Information Officer Department of Innovation and Technology City of Chicago 50 W. Washington, Suite 2700 Chicago, IL 60602

Re: Letter of Support for Smart Chicago BTOP Public Computer Centers Proposal

Dear Commissioner Bhatt:

The Chicago Housing Authority (CHA) strongly supports the City of Chicago's Smart Chicago Public Computer Centers proposal. As an agency that provides housing assistance to over 50,000 low-income Chicago households, access to computer labs is critical in addressing resident education, training and employment needs.

Through CHA's partnership with TEC Services, Inc., all public housing residents have access to the Microsoft Certifications, *Digital Literacy* and *Unlimited Potential*. Those completing these certifications who are also interested in pursuing a career in information technology can receive further hands-on training through a technology-focused occupational skills program.

Should the City receive funding for this proposal, we will be able to establish eight new computer labs in our family developments and considerably expand access to the free Microsoft Certifications. We will also be able to hire public housing residents who are enrolled in the occupational skills training program to assist with lab operation. Online education programs targeting youth and seniors could also be offered in these labs.

CHA is committing matching funds of \$222,410 for staff coordination and electrical infrastructure to support the installation of these labs at CHA sites. We will work with the City of Chicago and all partner organizations to implement the Smart Chicago Public Computer Centers project and provide more Chicagoans with Internet access and technology training they need to compe21st Century.

Sincerely

Lewis A. Jordan

RE: Smart Chicago Public Computer Centers

To Whom It May Concern:

We are happy to partner with the City of Chicago to execute the Smart Chicago Public Computer Center project which will increase access to broadband for vulnerable populations, improve accessibility to broadband for people with disabilities, build digital skills through customized technology training, and create jobs at all skill and experience levels.

The City Colleges of Chicago, District 508, one of the largest urban community college districts in the United States, is comprised of seven separately accredited colleges, three (3) technical institutes and three (3) learning centers, and a public television station, WYCC-TV Channel 20. The seven colleges of the district are:

- 1. Richard J. Daley College
- 2. Harold Washington College
- 3. Kennedy-King College
- 4. Malcolm X College
- 5. Olive-Harvey College
- 6. Harry S Truman College
- 7. Wilbur Wright College

Through our seven colleges, we deliver exceptional learning opportunities and educational services for diverse student populations in Chicago. We enhance knowledge, understanding, skills, collaboration, community service and life-long learning by providing a broad range of quality, affordable courses, programs, and services to prepare students for success in a technologically advanced and increasingly interdependent global society. We work to eliminate barriers to employment and to address and overcome inequality of access and graduation in higher education.

As part of this project, City Colleges will enhance each of our seven colleges Public Computing Centers. We will increase the number of computer workstations available to the public as well as the 115,000 students we serve on a daily basis.

City Colleges will provide staff to support this effort as well as enhance our district-wide WiFi and provide sufficient infrastructure enhancement and wiring for these Public Computing Additions. This matching contribution will total \$982,090.

We will work with the City of Chicago and all partner organizations to implement the Smart Chicago Public Computer Centers project and provide more Chicagoans with internet access and technology training they need to compete in the 21st Century.

Please feel free to contact me with any questions. Thank you for your consideration of this important project.

Sincerely,

Kathy P. Linenberger

RE: Smart Chicago Public Computer Centers

To Whom It May Concern:

We are happy to partner with the City of Chicago to execute the SmartChicago Public Computer Center project, which will increase access to broadband for vulnerable populations, improve accessibility to broadband for people with disabilities, build digital skills through customized technology training, and create jobs at all skill and experience levels.

As a certified small business and woman owned business, TEC Services has over 15 years of experience in working with disadvantaged populations to help improve their technology literacy and occupational skills. TEC Services has implemented and operated many community technology centers that serve adults and youth from populations such as public housing residents, dislocated workers, individuals with disabilities, at-risk youth and senior citizens.

For this project, TEC Services will be responsible for implementing the labs for the Chicago Housing Authority locations and training the residents that will staff the labs. TEC Services will also provide the programming for the participants. The programming will include digital literacy, academic enrichment and job skills training.

We will work with the City of Chicago and all partner organizations to implement the Smart Chicago Public Computer Centers project and provide more Chicagoans with Internet access and technology training they need to compete in the 21st Century.

Please feel free to contact me with any questions. Thank you for your consideration of this important project.

RE: Smart Chicago Public Computer Centers

To Whom It May Concern:

We are pleased to support the City of Chicago's application for the SmartChicago Public Computer Center project. This project will increase access to broadband for vulnerable populations, improve accessibility to broadband for people with disabilities, build digital skills through customized technology training, and create jobs at all skill and experience levels.

Employment & Employer Services (E&ES) has collaborated with the City of Chicago for nearly 25 years to provide quality employment and training services to its low-income, dislocated, and youth residents. We currently operate two Chicago Workforce Centers, one at Mid-South and one at Southwest/Daley College, with additional locations on campus at Daley College, Kennedy-King College, and Dawson Technical Institute. We also provide employment assistance to low-income individuals at Chicago's Trina Davila, Englewood, South Chicago, and King Community Services Centers. Through these programs, we are serving approximately 2,385 job seekers.

As a recipient of updated computer technology through this project, we look forward to increasing our computer capacity so that more adult and dislocated jobseekers are able to take advantage of our services and are ready to meet the challenges of the 21st century.

Please feel free to contact me with any questions. Thank you for your consideration of this important project.

To Whom It May Concern:

We are pleased to support the City of Chicago's application for the SmartChicago Public Computer Center project. This project will increase access to broadband for vulnerable populations, improve accessibility to broadband for people with disabilities, build digital skills through customized technology training, and create jobs at all skill and experience levels.

Southeast Chicago Development Commission is a not-for-profit organization serving Chicago residents in the 10th Ward on the south side, east side, Hegewisch, and South Deering communities. SEDCOM's Resource Room serves over 1,000 customers each month and over 350 registered customers. Our workforce division provides job readiness training to WIA qualified low-income adult and dislocated workers. Through our Center for Working Families, SEDCOM teaches customers how to work toward and maintaining a favorable credit rating while they are seeking employment and training opportunities. Once customers have secured sustainable employment, they will be better equipped to manage their finances and not exceed the cost of living. The income support specialist will assist customers in applying for temporary assistance with rent, food and utilities. Often we can navigate the systems for our customers and expedite the help they need to care for themselves and their families while they are developing their career paths.

As a recipient of updated computer technology through this project, we look forward to increasing our computer capacity so that more adult and dislocated jobseekers are able to take advantage of our services and are ready to meet the challenges of the 21st century.

ASSURANCES - NON-CONSTRUCTION PROGRAMS

Public reporting burden for this collection of information is estimated to average 15 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0040), Washington, DC 20503.

PLEASE DO NOT RETURN YOUR COMPLETED FORM TO THE OFFICE OF MANAGEMENT AND BUDGET. SEND IT TO THE ADDRESS PROVIDED BY THE SPONSORING AGENCY.

NOTE: Certain of these assurances may not be applicable to your project or program. If you have questions, please contact the awarding agency. Further, certain Federal awarding agencies may require applicants to certify to additional assurances. If such is the case, you will be notified.

As the duly authorized representative of the applicant, I certify that the applicant:

- Has the legal authority to apply for Federal assistance and the institutional, managerial and financial capability (including funds sufficient to pay the non-Federal share of project cost) to ensure proper planning, management and completion of the project described in this application.
- Will give the awarding agency, the Comptroller General of the United States and, if appropriate, the State, through any authorized representative, access to and the right to examine all records, books, papers, or documents related to the award; and will establish a proper accounting system in accordance with generally accepted accounting standards or agency directives.
- Will establish safeguards to prohibit employees from using their positions for a purpose that constitutes or presents the appearance of personal or organizational conflict of interest, or personal gain.
- Will initiate and complete the work within the applicable time frame after receipt of approval of the awarding agency.
- Will comply with the Intergovernmental Personnel Act of 1970 (42 U.S.C. §§4728-4763) relating to prescribed standards for merit systems for programs funded under one of the 19 statutes or regulations specified in Appendix A of OPM's Standards for a Merit System of Personnel Administration (5 C.F.R. 900, Subpart F).
- 6. Will comply with all Federal statutes relating to nondiscrimination. These include but are not limited to: (a) Title VI of the Civil Rights Act of 1964 (P.L. 88-352) which prohibits discrimination on the basis of race, color or national origin; (b) Title IX of the Education Amendments of 1972, as amended (20 U.S.C. §§1681-1683, and 1685-1686), which prohibits discrimination on the basis of sex; (c) Section 504 of the Rehabilitation

- Act of 1973, as amended (29 U.S.C. §794), which prohibits discrimination on the basis of handicaps; (d) the Age Discrimination Act of 1975, as amended (42 U.S.C. §§6101-6107), which prohibits discrimination on the basis of age; (e) the Drug Abuse Office and Treatment Act of 1972 (P.L. 92-255), as amended, relating to nondiscrimination on the basis of drug abuse; (f) the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (P.L. 91-616), as amended, relating to nondiscrimination on the basis of alcohol abuse or alcoholism; (g) §§523 and 527 of the Public Health Service Act of 1912 (42 U.S.C. §§290 dd-3 and 290 ee-3), as amended, relating to confidentiality of alcohol and drug abuse patient records; (h) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. §§3601 et seq.), as amended, relating to nondiscrimination in the sale, rental or financing of housing; (i) any other nondiscrimination provisions in the specific statute(s) under which application for Federal assistance is being made; and, (j) the requirements of any other nondiscrimination statute(s) which may apply to the application.
- 7. Will comply, or has already complied, with the requirements of Titles II and III of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (P.L. 91-646) which provide for fair and equitable treatment of persons displaced or whose property is acquired as a result of Federal or federally-assisted programs. These requirements apply to all interests in real property acquired for project purposes regardless of Federal participation in purchases.
- 8. Will comply, as applicable, with provisions of the Hatch Act (5 U.S.C. §§1501-1508 and 7324-7328) which limit the political activities of employees whose principal employment activities are funded in whole or in part with Federal funds.

- 9. Will comply, as applicable, with the provisions of the Davis-Bacon Act (40 U.S.C. §§276a to 276a-7), the Copeland Act (40 U.S.C. §276c and 18 U.S.C. §874), and the Contract Work Hours and Safety Standards Act (40 U.S.C. §§327-333), regarding labor standards for federally-assisted construction subagreements.
- 10. Will comply, if applicable, with flood insurance purchase requirements of Section 102(a) of the Flood Disaster Protection Act of 1973 (P.L. 93-234) which requires recipients in a special flood hazard area to participate in the program and to purchase flood insurance if the total cost of insurable construction and acquisition is \$10,000 or more.
- 11. Will comply with environmental standards which may be prescribed pursuant to the following: (a) institution of environmental quality control measures under the National Environmental Policy Act of 1969 (P.L. 91-190) and Executive Order (EO) 11514; (b) notification of violating facilities pursuant to EO 11738; (c) protection of wetlands pursuant to EO 11990; (d) evaluation of flood hazards in floodplains in accordance with EO 11988; (e) assurance of project consistency with the approved State management program developed under the Coastal Zone Management Act of 1972 (16 U.S.C. §§1451 et seq.); (f) conformity of Federal actions to State (Clean Air) Implementation Plans under Section 176(c) of the Clean Air Act of 1955, as amended (42 U.S.C. §§7401 et seq.); (g) protection of underground sources of drinking water under the Safe Drinking Water Act of 1974, as amended (P.L. 93-523); and, (h) protection of endangered species under the Endangered Species Act of 1973, as amended (P.L. 93-205).

- Will comply with the Wild and Scenic Rivers Act of 1968 (16 U.S.C. §§1271 et seq.) related to protecting components or potential components of the national wild and scenic rivers system.
- Will assist the awarding agency in assuring compliance with Section 106 of the National Historic Preservation Act of 1966, as amended (16 U.S.C. §470), EO 11593 (identification and protection of historic properties), and the Archaeological and Historic Preservation Act of 1974 (16 U.S.C. §§469a-1 et seq.).
- Will comply with P.L. 93-348 regarding the protection of human subjects involved in research, development, and related activities supported by this award of assistance.
- 15. Will comply with the Laboratory Animal Welfare Act of 1966 (P.L. 89-544, as amended, 7 U.S.C. §§2131 et seq.) pertaining to the care, handling, and treatment of warm blooded animals held for research, teaching, or other activities supported by this award of assistance.
- Will comply with the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. §§4801 et seq.) which prohibits the use of lead-based paint in construction or rehabilitation of residence structures.
- 17. Will cause to be performed the required financial and compliance audits in accordance with the Single Audit Act Amendments of 1996 and OMB Circular No. A-133, "Audits of States, Local Governments, and Non-Profit Organizations."
- Will comply with all applicable requirements of all other Federal laws, executive orders, regulations, and policies governing this program.
