Re: Broadband Planning and Mapping Budgets and Narratives – Additional Information

Dear Director Neville,

In regard to your additional follow-up questions and direction on the Planning and Mapping Budgets and Narratives, the New Mexico Department of Information Technology (DoIT) has prepared revised supplemental materials. Please find attached further information that specifically addresses:

- Attached is a revised budget. We have carefully mapped our original request to the new template, reallocated resources to ensure proactive steps are taken prior to contract award. Survey budgets between planning and mapping have been further delineated as well. We have provided the mapping request budget for Years One and Two and the Planning request for Years One through Five. The revised budget includes:
  - \$625,000 (\$500,000 Federal, \$125,000 Match) for planning over Years One to Five
  - \$1,625,000 (\$1,300,000 Federal, \$325,000 Match) for mapping in Years One to Two
- We have provided an updated schedule. We will use DoIT internal resources as much as possible prior to contract award to ensure a rapid transition and making the February 1 interim data to NTIA deadline.
- In regards to the DoIT FTE's, we have clarified the percentages of time dedicated to the project for each FTE. Where applicable, we have included background information on the staff we have tentatively chosen. Otherwise we have provided a general job description for the position(s).
- The DoIT Secretary has been in contact with BIA Liaison, Deswood Tome, Chief Technology Officer for the Navajo nation. The BIA Liaison will participate in the project steering group and will help ensure the reservations' perspective and participation in the project.
- Additional information regarding budget details on mileage and other estimates.

NEW MEXICO

Bill Richardson  
Governor

Marlin Mackey  
Secretary

Conny Maki  
Deputy Secretary  
Enterprise Services

Thomas A. McQuillan  
Deputy Secretary  
Enterprise Operations

As you review our grant request, please keep in mind that New Mexico is a geographically large and diverse state. While broadband services in the larger population centers are provided by typical resources, the vast majority of our state is rural, and as such, has a unique variety of infrastructure providers including a diverse segment of local carriers.

Let us know if you have any additional questions.

Sincerely,

A handwritten signature in black ink, appearing to be "Marlin Mackey", written over a horizontal line.

Marlin Mackey  
Cabinet Secretary & State Chief Information Officer

## New Mexico: Broadband Mapping

### Contracted

#### Project Management

***With this being a project outside of on-going programs, project management processes and staff will be established by the contractor to fulfill the goals and tasks established for the project. Project deliverables and risks as well as the working schedule will be monitored by the project management staff provided by the contractor.***

#### Telecom Engineering

***Contractor will be responsible for the identification and fulfillment of the technical services required for the project's technical engineering, including specifications and on-going evaluations, related to data gathering, verification, analysis and mapping.***

#### Data Gathering & Updating

***Contractor will establish specifications for and will be responsible for obtaining the necessary data at least twice a year in order to establish comprehensive and accurate state-level***

Budget Explanation Expanded Text and Task descriptions for Project Management and IV&V

***broadband mapping will form the foundation for both supply side and demand side information. NDAs with telecom providers and other means will be used by the vendor.***

#### Data Entry and Processing

***Data entry and batch file conversion of acquired data into the project's format will be done by the contractor according to specifications established for the project.***

#### GIS Mapping

***Contractor will provision the GIS platform including specification of equipment and supporting software, and will keep the system current with vendor configuration standards.***

#### Data Verification

***To better assure the accuracy of the data collected and used for this project, an independent contractor will be used for data verification and validation, and for the processes, tools and techniques used by the data gathering, data entry and GIS mapping contractor.***

#### User Surveying

***The contractor will provide extensive, detailed end user phone surveying to balance and verify Telecom Company provided data as described in the project narrative.***

#### Statistical Analysis

The contractor will conduct statistical analysis of all collected data, to provide metrics for time-based broadband services and data changes, as needed for reporting and for mapping.

#### Federal Reporting

***As required for Federal reporting, the contractor will provide specified reporting on all contracted work on at least a quarterly basis. This reporting will be delivered to the NM Department of Information Technology.***

#### Travel and Travel Expenses

***As specified in the Contractor agreement with the Department of Information Technology, the contractor will be reimbursed for project travel, lodging and related expenses, for in-state and out-of-state travel.***

#### Web Site Setup/Maintenance

The contractor will design, construct and populate the mapping project website, with public and password-protected private sections, containing data, state maps, resource links and links to the national broadband mapping site.

#### Accessibility-Printing-Distribution

The contractor will prepare public information materials, reports, handouts and media releases, to communicate the processes and progress of statewide broadband improvements, mapping and sustainable adoption.

#### NM-ISBI Model/Simulation

The contractor will work with the New Mexico research institution teams to integrate data and mapping results with advanced agent-based modeling and simulation techniques, for a dynamic statewide broadband model.

### **Department of Information Technology**

The New Mexico Department of Information Technology will manage, participate in, oversee and report on all aspects of the five year Broadband Mapping Project including staffing key aspects.

#### DoIT Project Management

***The Department of Information Technology will provide project management resources to coordinate the fulfillment of contractor and state agency deliverables, integrate the project with all other State of New Mexico IT initiatives and State of New Mexico government requirements including project certification, identifying and mitigating project risks and issues as well as the coordinating of project related communications. Department project management will also be the responsible entity for cooperation with NTIA and other federal agencies.***

#### DoIT Compliance, QA, IV&V

***In keeping with State of New Mexico best practices, the Department will provide necessary monitoring of the project, its management, fulfillment of requirements- both internal and external including federal and state, the quality of its deliverables. This monitoring will be done through project team QA as well as State of New Mexico mandated Independent Verification and Validation processes and procedures including the use of an independent contractor for such tasks and responsibilities.***

#### DoIT Federal Reporting

The Department of Information Technology will provide the NTIA quarterly reports as well as the agreed to bi-annual deliverables of data and maps.

#### DoIT Fiscal Oversight

***Through its project management, project certification and contract management processes and the fiscal oversight of its program support division, the Department of Information Technology will monitor the procurement, contracts, and budgeted expenditures of the project over the five year period. This will include any required financial reporting process and scheduled reports.***

#### DoIT Web Site Setup/Maintenance

***The Department of Information Technology will coordinate with the contractor on web site hosting and maintenance, collaborating on site design, applications integration and usability following the State of New Mexico's best practices guidelines and security standards.***

#### DoIT Data Analysis and GIS Oversight

***The State of New Mexico through Department of Information Technology will coordinate with the contractor and federal agencies on the application of best practices, standards and the State of New Mexico GIS strategic plan. Department of Information Technology will provide GIS staff and related specialist in support of its contract obligations for the GIS aspects of the Department of Information Technology-Contractor agreement. This will help to assure fulfillment of GIS metadata requirements and common mapping techniques among State of New Mexico agencies.***

***The Department of Information Technology will provide oversight of the Data Gathering and Data Analysis including the verification and validation processing of the collected data. This oversight will encompass both the telecom company provided data as well as the user survey data.***

#### ***Department of Information Technology User Surveying***

***The Department will develop the initial survey documents and processes at the outset of the project. The Department will distribute the survey instrument and will obtain and analyze the initial data along with validation of the survey instrument in light of this initial data.***

#### DoIT Travel and Travel Expenses

**The Department of Information Technology will be reimbursed for direct project travel, lodging and related expense, for both in-state and out-of-state travel.**

#### DoIT Overhead (Office, equipment)

The Department of Information Technology will be paid \$20,000 per year for departmental overhead, including the use of facilities, computing and printing systems, and direct costs.

#### DoIT Procurement + Clerical

The Department of Information Technology will be responsible for approvals and purchasing of equipment and other items to be used for this project. It will also provide basic clerical support as needed for five years.

## **New Mexico: Broadband Planning**

### **Contracted**

#### Project Management

***With this being a project outside of on-going programs, project management processes and staff will be established by the contractor to fulfill the goals and tasks established for the project. Project deliverables and risks as well as the working schedule will be monitored by the project management staff provided by the contractor.***

#### Working Group Coordination

The contractor will facilitate frequently scheduled statewide working group meetings to strengthen demand-side broadband planning efforts

#### Accessibility: Printing + Distribution

The contractor will prepare public information materials, reports, handouts and media releases, to communicate the processes and progress of statewide broadband improvements, mapping and sustainable adoption.

#### Travel and Expenses

***As specified in the Contractor agreement with the Department of Information Technology, the contractor will be reimbursed for project travel, lodging and related expenses, for in-state and out-of-state travel.***

#### Community Broadband Planning Assistance

The contractor will coordinate with New Mexico Department of Information Technology and other public and private sector partners to provide local and regional broadband planning assistance and outreach education.

#### Documentation

## Budget Explanation Expanded Text and Task descriptions for Project Management and IV&V

The contractor will provide multi-media (digital text, images, sound, video) documentation over the course and geographic scope of the planning project.

### Web Site Setup/Maintenance

The contractor will design, construct and populate the mapping project website, with public and password-protected private sections, containing data, state maps, resource links and links to the national broadband mapping site.

## Department of Information Technology

### DoIT Project Management

*The Department of Information Technology will provide project management resources to coordinate the fulfillment of contractor and state agency deliverables, integrate the project with all other State of New Mexico IT initiatives and State of New Mexico government requirements including project certification, identifying and mitigating project risks and issues as well as the coordinating of project related communications. Department project management will also be the responsible entity for cooperation with NTIA and other federal agencies.*

### DoIT Compliance, QA, IV&V

*In keeping with State of New Mexico best practices, the Department will provide necessary monitoring of the project, its management, fulfillment of requirements- both internal and external including federal and state, the quality of its deliverables. This monitoring will be done through project team QA as well as State of New Mexico mandated Independent Verification and Validation processes and procedures including the use of an independent contractor for such tasks and responsibilities.*

### DoIT Federal Reporting

The Department of Information Technology will provide the NTIA quarterly reports as well as the agreed to bi-annual deliverables of data and maps.

### DoIT Fiscal Oversight

*Through its project management, project certification and contract management processes and the fiscal oversight of its program support division, the Department of Information Technology will monitor the procurement, contracts, and budgeted expenditures of the project over the five year period. This will include any required financial reporting process and scheduled reports.*

#### DoIT Web Site Setup/Maintenance

***The Department of Information Technology will coordinate with the contractor on web site hosting and maintenance, collaborating on site design, applications integration and usability following the State of New Mexico's best practices guidelines and security standards.***

#### DoIT GIS Oversight

***The State of New Mexico through Department of Information Technology will coordinate with the contractor and federal agencies on the application of best practices, standards and the State of New Mexico GIS strategic plan. Department of Information Technology will provide GIS staff and related specialist in support of its contract obligations for the GIS aspects of the Department of Information Technology-Contractor agreement. This will help to assure fulfillment of GIS metadata requirements and common mapping techniques among State of New Mexico agencies.***

#### DoIT Data Analysis Oversight

***The Department of Information Technology will provide oversight of the Data Gathering and Data Analysis including the verification and validation processing of the collected data. This oversight will encompass both the telecom company provided data as well as the user survey data.***

#### DoIT Travel and Travel Expenses

***The Department of Information Technology will be reimbursed for direct project travel, lodging and related expense, for both in-state and out-of-state travel.***

#### DoIT Overhead (Office, equipment)

The Department of Information Technology will be paid \$20,000 per year for departmental overhead, including the use of facilities, computing and printing systems, and direct costs.

#### DoIT Procurement + Clerical

The Department of Information Technology will be responsible for approvals and purchasing of equipment and other items to be used for this project. It will also provide basic clerical support as needed for five years.

## **Job Descriptions**

## **Project Manager**

*For State of New Mexico IT Projects there is an emphasis on integrated planning, scope management, time or schedule management, cost and quality management, project team and communications management and especially risk management. The State of New Mexico recognizes these important elements of project management in its project certification process which is required for any IT project above \$100,000. Such projects are required to submit requests for certification: as it begins the project initiation phase; as it moves into the planning phase; as it moves into the implementation phase; then as the project completes its implementation phase; and moves to close the project. In addition, each project must submit a monthly status report. It is anticipated that this project will also require a technical architecture review.*

*The Department of Information Technology project manager will be required to manage the project in accordance with these State of New Mexico project certification guidelines.*

## **Independent Validation and Verification Manager**

*The state has established the IV&V process as a key ingredient in its IT project risk mitigation strategy by requiring IT projects subject to project certification to have established plans for acquiring independent verification and validation.*

*The IV&V manager would review project requirements to assure that these are met during the development of the project and in the final implementation stages, and will review project management plans, schedules as well as budget expenditures to assure that best practices are being carried out responsibly.*

### **Verification**

*“Verification” means the project is adhering to project management disciplines, planned and performed according to its project plans and that such adherence can be verified by an independent examination of project documents and other evidence.*

### **Validation**

*“Validation” means that the project deliverables and project results meet the business and technical initiatives established by the project sponsors, ensuring that the end product meets the documented performance outcomes and requirements of the project.*

### **Independent**

*“Independent” means autonomous and impartial verification and validation assessment of a project’s adherence to project management plans and compliance with business requirements. These independent assessments are performed by an entity that is not responsible for developing the product or performing the activity being evaluated.*

### **Independent Verification and Validation**

***“Independent verification and validation (IV&V)” is the means of obtaining an independent and objective view of an IT project with the intent of protecting the state of New Mexico’s interests, and is focused on the management of the project and its compliance with specified requirements through its development stages.***

### **Fiscal Manager**

***Fiscal management will be provided by a fiscal manager who will manage the project’s budget, procurements, contracts and budgeted expenditures of the five year period. This fiscal management will include any required financial reporting and scheduled reports. The Fiscal manager will be responsible for the project’s compliance with State of New Mexico, federal and grant related rules and regulations regarding financial management of this project.***

### **Department of Information Technology User Surveying Manager**

***The Department will develop the initial survey documents and processes at the outset of the project. The Department will distribute the survey instrument and will obtain and analyze the initial data along with validation of the survey instrument in light of this initial data. The User Surveying Manager will carry out this development, processes, survey instrument and will be responsible for the distribution of the tools and the gathering and analysis of the initial data.***

**Broadband Planning and Mapping  
 State of New Mexico - Department of Information Technology  
 Additional Full Time Equivalent Detail**

<b>Position</b>	<b>% Time Dedicated to Project Y1-Y2</b>	<b>Background</b>
Project Management	25%	Tentative Assignment to Nick Behrman, certified PMP, over 20 years experience managing projects, inclusive of five years with State of NM
Federal Reporting, IV&V, and Quality Assurance	65%	Tentative Assignment to Vicki Gottlieb, over ten years experience providing quality assurance and oversight on Information Technology with State of NM.
Website Development	33%	Tentative assignment TBD: NM DoIT employees a team of web developers on site with a rich combination of application development experience.
Fiscal Oversight	100%	Tentative Assignment TBD: Position monitor the procurement, contracts, and budgeted expenditures of the project over the five year period.
User Surveying, Data Analysis, GIS Oversight	60%	Tentative assignment TBD: Information Technology analyst with sufficient skills and experience to provide surveying and analysis inclusive of background in mapping.

# **New Mexico Department of Information Technology - Office of Security:**

## ***Physical Security***

DoIT Office of Security maintains 24X7 physical security for the New Mexico state data center located in Santa Fe, NM and telecommunication facilities through out the state of New Mexico. This includes:

- 24x7 Security Officers located at state data center,
- 24X7 video surveillance with digital recording for all NM DoIT facilities,
- Managed access control for NM DoIT facilities,
- Biometric and proximity authorization to state data center and major communication hubs.

## ***Cyber Security***

DoIT Office of Security manages information security for the state data center and state core network infrastructure. This includes:

- Internet firewall and intrusion prevention system management with log monitoring,
- Mainframe firewall management and monitoring for tax, transportation and health agencies which have strict federal security requirements,
- VPN management with log monitoring for employee and contractor outside access into the state network infrastructure.

## ***Systems managed by DoIT Office of Security***

In accordance with the State of New Mexico Statewide Policy for Network Security (<http://www.doit.state.nm.us/docs/ACR/S-STD-005-001.pdf>) systems managed by DoIT Office of Security consist of:

- Internet firewall and intrusion prevention system at the perimeter of the state network with log monitoring,
- Fire walled security zones between web server, application server and database server
- Web-enabled and secure file transfer services deployed on a Demilitarized Zone (DMZ) or proxy from the DMZ.
- Secure encrypted file transfers for any data providers into the system
- SSL VPN access utilized for management of the system and provided for internal or external users

Non disclosure agreements are setup for any employees or contractors managing or providing input into the system(s). Examples of Security requirements met can be found through existing federal requirements such as tax, transportation and health agencies which have strict federal security requirements (HIPAA, FTI, etc.).

## New Mexico: Broadband Mapping Timeline – Revised October 2009

Date	Task
3rd Quarter 2008 -	New Mexico Integrated Strategic Broadband Initiative: working meetings State leadership on statewide broadband stimulus coordination
3rd Quarter 2009	By Aug. 14: Prepare proposal and apply to the NTIA SBDDP for funding  NM-DoIT preparation and posting of RFPs for project contracted firm(s)
4th Quarter 2009	NTIA SBDDP award announcements (assuming NM award as applied for) Provide quarterly reporting to the NTIA, throughout the five year program  NM-DoIT - Organize and begin Stakeholder and steering committee NM-DoIT - Initiate project management, project work plan, and actions NM-DoIT - First-round multi-source data gathering NM-DoIT - Develop web site NM-DoIT - Conduct preliminary market/user surveying NM-DoIT - RFP & awarding of project contract(s) NM-DoIT - Preliminary maps creation
1st Quarter 2010	Project documentation (ongoing) Preliminary survey tabulation and reporting Data gathering and analysis + mapping (ongoing) Post initial data, maps and links on State public web site (ongoing) Feb 1: Submit interim data to NTIA
2nd Quarter 2010	Market/user surveys + tabulation NM Broadband Conference & National Open Broadband Economic Summit June 30: Data collection interim deadline
3rd Quarter 2010	Statewide outreach, planning and data gathering coordination (ongoing) Surveys integration and reporting
4th Quarter 2010	Sept. 1: Submit interim data to NTIA  Nov. 30: Data submission requested deadline Dec. 31: Data collection interim deadline
1st Quarter 2011	Feb 1: Submit interim data to NTIA
2nd Quarter 2011	Market/user surveys + tabulation
3rd Quarter 2011	June 30: Data collection interim deadline NM Broadband Conference Surveys integration and reporting

4th Quarter 2011	Sept. 1: Submit interim data to NTIA Nov. 30: Data submission requested deadline Dec. 31: Data collection interim deadline
1st Quarter 2012	Feb 1: Submit interim data to NTIA
2nd Quarter 2012	Market/user surveys + tabulation June 30: Data collection interim deadline
3rd Quarter 2012	Surveys integration and reporting Sept. 1: Submit interim data to NTIA
4th Quarter 2012	Nov. 30: Data submission requested deadline Dec. 31: Data collection interim deadline
1st Quarter 2013	Feb 1: Submit interim data to NTIA
2nd Quarter 2013	Market/user surveys + tabulation June 30: Data collection interim deadline
3rd Quarter 2013	Surveys integration and reporting Sept. 1: Submit interim data to NTIA
4th Quarter 2013	Nov. 30: Data submission requested deadline Dec. 31: Data collection interim deadline
1st Quarter 2014	Feb 1: Submit interim data to NTIA
2nd Quarter 2014	Market/user surveys + tabulation June 30: Data collection interim deadline
3rd Quarter 2014	Surveys integration and reporting Sept. 1: Submit interim data to NTIA
4th Quarter 2014	Nov. 30: Data submission requested deadline Dec. 31: Data collection interim deadline
2015 -	NTIA-SBDD Project completion Continue NM Integrated Strategic Broadband Initiative

3rd Quarter 2014

4th Quarter 2014

2015 -

Publish NM-ISBI five year mapping and planning Report  
NTIA-SBDD Project completion

Continue NM Integrated Strategic Broadband Initiative

Subject: Rough Order of Magnitude (ROM) for BroadbandStat Implementation Services

Dear Mr. Salazar:

Environmental Systems Research Institute, Inc. (ESRI) is pleased to present the State of New Mexico (the State) with this rough order of magnitude (ROM) price estimate for implementing the BroadbandStat web application. This includes the appropriate installation and configuration services.

This ROM provides estimated pricing for the State of New Mexico budgetary planning purposes only. The estimated pricing provided is based on ESRI's current understanding of the State of New Mexico broadband map access needs. Additional requirements gathering and use case descriptions will be necessary to refine the ROM estimate provided in this letter. ESRI envisions providing services in support of the following main activities:

### **Proposed Scope of Work**

#### **Task 1—Broadband Mapping Discovery Workshop**

Under the scope of this task, ESRI will travel to the State of Mexico's offices in Santa Fe, NM for a period of two (2) business days to conduct an onsite Broadband Mapping Discovery workshop. During the workshop, the following key areas will be covered:

- Review existing GIS applications and workflows
- Identify key requirements for BroadbandStat configuration
- Review ESRI broadband data model
- Review data source / content requirements (Landbase, Carriers, Census, ArcGIS Online, etc.)
- Review data migration requirements (if required)
- Review potential data quality and data sensitivity issues
- Review system architecture environment: hardware, software, and network communications
- System Architecture requirements including:
  - Number of BroadbandStat end users
  - Location of BroadbandStat end users
  - Existing supporting ArcGIS Server and RDBMS infrastructure
  - Existing ArcGIS Desktop resources

- Network capacity at and between the State's relevant facilities
- Data volume

### **Task 2—Broadband Mapping Assessment Report**

Following the Broadband Mapping Discovery workshop, ESRI will prepare a summary of the workshop findings in a Broadband Mapping Assessment Report. The report will include the following information:

- BroadbandStat configuration requirements
- System architecture environment and security recommendations
- Data migration recommendations (if necessary)
- ESRI broadband data model configuration requirements
- Recommendations for additional data needs
- Identification of those requirements that cannot be met with configuration of the BroadbandStat application and require customization

### **Task 3—System Architecture Design Document**

Following the Broadband Mapping Discovery workshop, ESRI will prepare a summary of the workshop system findings in a State Broadband System Architecture Design document. The report will summarize the existing status of the State's GIS and related IT infrastructure and recommend any upgrades required to efficiently support the State's Broadband Mapping project in general, and, in specific, the State's BroadbandStat application instance.

### **Task 4—Test and Acceptance Plan**

Under the scope of this task, ESRI will develop a Test and Acceptance Plan. This Plan will be used for Internal Acceptance Testing (IAT) and for acceptance of the BroadbandStat Application during the User Acceptance Test (UAT) task. The Test and Acceptance Plan will be based on the accepted Broadband Mapping Assessment Report specified in Task 2. The Plan will describe data input to be passed to the BroadbandStat Application, testing procedures to be followed, the output or results that should be received if the application is functioning properly, and associated acceptance criteria.

### **Task 5—BroadbandStat Configuration**

BroadbandStat is an interactive Web-based application based on ArcGIS Server and the ArcGIS API for Flex to provide a rich internet application (RIA) user experience. BroadbandStat gives decision makers both a common operating picture and sophisticated geospatial analysis.

Following completion of Tasks 2 and 3, ESRI will travel to the State of Mexico's offices in Santa Fe, NM for a period of up to ten (10) business days to install and configure the pre-existing BroadbandStat web application on two (2) servers based on the system requirements described in the accepted Broadband Mapping Assessment Report. In addition, ESRI will install the required COTS ArcGIS Server software on up to two (2) servers for the test and production environments.

### **Task 6—Internal Acceptance Testing**

Upon completion of Task 5, the BroadbandStat Application will be ready for Internal Acceptance Testing (IAT). An ESRI consultant will travel to State of Mexico's offices in Santa Fe, NM offices to participate in the IAT over a period of two (2) business days.

In the event that the BroadbandStat application does not meet the criteria defined in the accepted Test and Acceptance Plan, ESRI will refine the application during the IAT until all criteria are met. Upon successful completion of the IAT, the BroadbandStat configuration will be finalized for reference in the User Acceptance Testing (UAT) by the State under Task 10.

## **Task 7—Documentation**

### **Task 7.1—Installation and Administration Guide**

Under the scope of this task, ESRI will develop the BroadbandStat Installation and Administration Guide in a Microsoft Word format.

The Guide will consist of two primary sections:

- **Installation Guide-** This section will provide instructions for installing the State BroadbandStat Application.
- **Administration Guide –** This section will provide details of the BroadbandStat configuration, any required data source or ancillary application geodatabase tables, and instructions for deploying the configuration to a new server environment.

### **Task 7.2—End User Online Help**

Under the scope of this task, ESRI will develop End User Online Help documentation in HTML format.

## **Task 8—Technology Transfer**

Immediately following the State BroadbandStat IAT activities in Task 6, ESRI will provide a one (1) business day Administrator Technology Transfer session covering technical details of the BroadbandStat application required for installation, maintenance, and administration. This approach is intended to instruct a core group of the State IT and GIS administration-level staff for them to maintain and deploy the application in the State's production environment. The intention is also to provide this core group with an appropriate level of application experience so that they can actively and efficiently participate in the State UAT activities in Task 10. The class is limited to no more than five (5) the State participants.

## **Task 9—User Training**

Immediately following Task 7, ESRI will provide a one (1) day End User Training session covering functional details of the BroadbandStat application required for use of the application by end users. This approach is intended to instruct a core group of the State end user-level staff for them to use the application in the State's production environment. The intention is also to provide this core group with an appropriate level of application experience so that they can actively and efficiently participate in the State UAT activities in Task 10. The class is limited to no more than twenty (20) the State participants

## **Task 10—User Acceptance Test (UAT)**

ESRI will administrate User Acceptance Testing (UAT), in the test environment set up by the State, to verify the BroadbandStat customizations operate in accordance with the accepted the State BroadbandStat Test and Acceptance Plan.

### **Task 11—Production Support**

Upon completion of the above tasks, ESRI will provide up to up to forty (40) hours of remote production support over a period of forty (40) business days. The remote support will be provided during normal ESRI business hours: Monday – Friday, 8:00 a.m. – 5:00 p.m. Pacific Time.

### **Key Assumptions**

This ROM is based on the following assumptions:

- Appropriate State technical staff will participate in the project.
- Implementation of the BroadbandStat Web application is based on configuration only. Customization costs can be provided upon request.
- One of the servers used in the BroadbandStat configuration will support the Internal Acceptance Testing (IAT) activities in Task 6.
- The ArcGIS Server license installations will be limited to those servers supporting the BroadbandStat application. ESRI is not responsible for supporting the installation of ArcGIS Server in support of any of the State's other GIS applications.
- ESRI is not responsible for the quality and accuracy on the State's broadband data.
- The State is responsible for purchasing and installation of one of the following relational database management systems: SQL Server, Oracle, DB2, Informix, or PostgreSQL.
- ESRI provides a thirty (30) day warranty for the BroadbandStat Web application. Additional support options are available upon request.

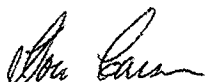

### **Rough Order Of Magnitude Estimate**

In addition to the Services estimated below, the State is responsible for licensing ESRI's BroadbandStat Web Application at an initial price of \$60,000 for first year licensing and maintenance. The BroadbandStat Web Application annual standard maintenance pricing is \$15,000/year for each subsequent year.

The total ROM price for the work described above is estimated to be **\$270,000 (including first year licensing fee)** based on a project schedule that concludes within the 2010 calendar year. This ROM estimate is based on ESRI's current understanding of the scope of work to be performed and work on projects of a similar nature. This is not a formal proposal, and the descriptions and rough pricing estimates will not be binding.

The actual price to perform this work will be provided to the State of New Mexico as a firm-fixed-price (FFP) proposal upon its express interest to contract with ESRI and agreement on the State's requirements/deliverables or upon the provision of a formal RFP. Please feel free to contact me at 972-699-0014, extension 5668, if you have questions about this ROM.

Sincerely,

## ESRI QUOTATION TERMS AND CONDITIONS

ESRI, 380 New York St., Redlands, CA 92373-8100 USA • TEL 909-793-2853 • FAX 909-793-5953

---

---

All quotations are valid for ninety (90) days unless otherwise stated on the quotation form. These prices and terms are valid only for items purchased for use and delivery within the United States.

This quotation information is proprietary and may not be copied or released other than for the express purpose of the current system selection and purchase. This information may not be given to outside parties or used for any other purpose without written consent from Environmental Systems Research Institute, Inc. (ESRI).

*To expedite your order, please reference the quotation number on your purchase order.*

### ORDER PROCESS

The order process is initiated when ESRI receives an original purchase order or some form of advance payment. Several additional documents (e.g., Master License Agreement, credit application, Tax Exemption Certificate, etc.) may be required to complete the order process. Generally, the need for these documents varies by the type of software, data, Web-enabled services, subscriptions, professional services or other products ordered, which is determined upon receipt of the purchase order (or advance payment). If delivery must be expedited, please contact your marketing representative for assistance.

**IMPORTANT!** Collectively, these documents contain the authorizations and information necessary to ship proper versions of the software or data on the correct media, or to initiate Web-enabled services, subscriptions, or professional services. Please return them promptly to avoid unnecessary delays in shipping or delivery. Please return all documents to ESRI Customer Service, or as otherwise directed.

Please show the following remittance address on your purchase order:

ESRI, File No. 54630, Los Angeles, CA 90074-4630

### ESRI LICENSE AGREEMENTS

All ESRI software, data, Web-enabled services, and subscriptions offered in this quotation are commercial off-the-shelf items developed at private expense and subject to ESRI commercial license terms. You may have a signed license agreement on file that covers this order. If so, please reference the license agreement number on your purchase order. Unless a signed license is on file with ESRI, ESRI software, data, Web-enabled services and subscriptions are subject to the ESRI License Agreement included with the deliverable item as an on-line or click-through agreement. A copy is enclosed. Certain software or data requires a Master License Agreement signed by both parties. Professional services agreements may also include license terms.

Some ESRI software is copy protected with a software keycode or hardware key, and some software, data, Web-enabled services or subscriptions require registration or a password. You will be given instructions to access the keycode, register, or obtain a password through the ESRI Web site or by other means.

### MAINTENANCE

After expiration of any complimentary period of maintenance that may apply to the licensed software, ESRI will quote maintenance payable annually in advance. A reinstatement fee applies when maintenance has lapsed.

### OPTIONAL MULTI-YEAR MAINTENANCE

For software and data with optional multiyear maintenance for a discounted fee, the discounted maintenance fees are in consideration of, and contingent upon, your commitment to the maintenance term you elect in your order. For such multiyear maintenance, you may cancel the maintenance upon ninety (90) days advanced written notice to ESRI Customer Service, subject to payment of fifty percent (50%) of the outstanding maintenance fees for the maintenance term initially ordered. No other refund or reduction for cancellation is available. If you are ordering multi-year maintenance, please indicate a billing option on your purchase order by selecting a statement as indicated below.

Option 1. If you are purchasing a product with multi-year maintenance terms and are issuing the purchase order for all years upfront, please include the following information on your purchase order: **"This PO is in acceptance of quote # \_\_\_\_\_ and covers the total amount for all years included in the multi-year maintenance term. ESRI may invoice the entire amount upon shipment."**

Option 2. If you are purchasing a product with multi-year maintenance terms and are issuing the purchase order for the first year only, please include the following information on your purchase order (PO): "**This PO is in acceptance of quote # \_\_\_\_\_ . This order is for the initial year of the multi-year maintenance term. We agree to issue a PO for each subsequent year in a pro rata amount per year to be invoiced annually in advance.**"

Option 3: If you are purchasing a product with multi-year maintenance terms and are issuing the purchase order for all years upfront but want to be invoiced annually, please include the following information on your purchase order: "**This PO is in acceptance of quote # \_\_\_\_\_ and covers the total amount for all years included in the multi-year maintenance term. However, ESRI shall invoice annually in advance a pro rata amount for each year of the term.**"

#### **DATA AND WEB SERVICES DISCLAIMER**

Data and Web Services may contain some nonconformities, defects, errors, or omissions. THE DATA AND WEB SERVICES ARE PROVIDED "AS-IS" WITHOUT WARRANTY OF ANY KIND. Without limiting the generality of the preceding sentence, ESRI and its licensors do not warrant that the data and Web Services will meet Licensee's needs or expectations, that the use of the data or web services will be uninterrupted, or that all nonconformities can or will be corrected. ESRI and its licensors are not inviting reliance on this data or Web Services, and Licensee should always verify actual data or Web Services.

#### **DELIVERY**

FOB Redlands, CA, USA

*Software:* Allow thirty (30) days from ESRI's receipt of purchase order, signed Software License Agreement(s), and other documents, as required.

*Hardware:* Manufacturer's terms apply. Lead times depend on make/models purchased.

*Note:* Standard delivery method is ground or two-day air for software and surface carrier for hardware. Actual delivery method may vary depending on weight. Other service is available for an additional fee (e.g., overnight delivery).

#### **PAYMENT TERMS**

Net thirty (30) days, on approved credit. Orders less than \$800 require prepayment by check or credit card unless your organization is a government agency, university, college, or Fortune 500 company.

#### **TAXES**

This quote includes applicable sales or use taxes for the prices quoted as required by law. The tax amount may change depending on the time lapse between this quote and your order to us. ESRI will include applicable sales or use taxes on your invoice unless you provide proof with your order that your organization or use of the product is tax exempt.

### **IMPORTANT—READ CAREFULLY**

UNLESS SUPERSEDED BY A SIGNED LICENSE AGREEMENT BETWEEN YOU AND ESRI, ESRI IS WILLING TO LICENSE SOFTWARE, DATA, WEB SERVICES, OR DOCUMENTATION TO YOU ONLY IF YOU ACCEPT ALL TERMS AND CONDITIONS CONTAINED IN THIS LICENSE AGREEMENT. PLEASE READ THE TERMS AND CONDITIONS CAREFULLY. SOFTWARE, DATA, OR DOCUMENTATION WILL NOT BEGIN DOWNLOADING TO OR INSTALL ONTO YOUR COMPUTER SYSTEM UNTIL YOU HAVE MANIFESTED YOUR ASSENT TO THE TERMS AND CONDITIONS OF THE LICENSE AGREEMENT BY CLICKING "I accept the License Agreement" BELOW. IF YOU DO NOT AGREE TO THE TERMS AND CONDITIONS AS STATED, THEN ESRI IS UNWILLING TO LICENSE SOFTWARE, DATA, WEB SERVICES, OR DOCUMENTATION TO YOU, AND YOU SHOULD CLICK "I do not accept the License Agreement" BELOW AND RETURN THE PACKAGE TO ESRI OR ITS AUTHORIZED DISTRIBUTOR. SEE <http://www.esri.com/legal> FOR UPDATED TERMS THAT MAY APPLY TO FUTURE VERSIONS OF SOFTWARE, DATA, WEB SERVICES, AND DOCUMENTATION.

### **LICENSE AGREEMENT (E204 5/08)**

This License Agreement ("License Agreement") is between you ("Licensee") and Environmental Systems Research Institute, Inc. ("ESRI"), a California corporation with a place of business at 380 New York Street, Redlands, California 92373-8100 USA.

#### **ARTICLE 1—DEFINITIONS**

**Definitions.** The terms used are defined as follows:

- a. "Beta" means any alpha, beta, or prerelease Software, Data, Documentation, or Web Services.
- b. "Data" means any ESRI or third-party digital dataset(s) including, but not limited to, geographic vector data coordinates, raster, reports, or associated tabular attributes, licensed under this License Agreement.
- c. "Documentation" means all printed and digital materials including, but not limited to, help files, user reference documentation, training documentation, or technical information and briefings.
- d. "Samples" means sample code, sample applications, add-ons, or sample extensions of Software, Data, Documentation, or Web Services.
- e. "Software" means all or any portion of ESRI's proprietary software technology accessed or downloaded from an authorized ESRI Web site or delivered on any media in any format including backups, updates, service packs, patches, hot fixes, or permitted merged copies.
- f. "Term License" means licenses provided for use in a limited time period or on a subscription or transaction basis.
- g. "Web Services" means software services or ESRI or third-party data provided by ESRI that perform geographic information system (GIS) functions, tasks, or data services and are accessed over the Internet.

#### **ARTICLE 2—INTELLECTUAL PROPERTY RIGHTS AND RESERVATION OF OWNERSHIP**

Software, Data, Web Services, and Documentation are licensed and not sold. ESRI and its licensors own Software, Data, Web Services, and Documentation, which are protected by United States and applicable international laws, treaties, and conventions regarding intellectual property and proprietary rights including trade secrets. Licensee agrees to use reasonable means to protect Software, Data, Web Services, and Documentation from unauthorized use, reproduction, distribution, or publication. ESRI and its third-party licensors reserve all rights not specifically granted in this License Agreement including the right to change and improve Web Services.

## ARTICLE 3—GRANT OF LICENSE

**3.1 Grant of License.** Subject to the terms of this License Agreement, ESRI grants to Licensee a personal, nonexclusive, nontransferable license solely to

- a. Use the type and number of copies of Software, Data, and Documentation and access Web Services (i) for which the applicable license fees have been paid, (ii) for Licensee's own internal use, and (iii) in accordance with Exhibit 1 and the licensed configuration on file as authorized by ESRI or its authorized distributor.
- b. Access and use any secure ESRI Web site resources made available to Licensee for Licensee's own internal use, provided that Licensee follows ESRI's terms of use policy specified therein. All password or controlled access information provided by ESRI or its authorized distributor shall be treated as ESRI confidential information.

**3.2 Beta License.** Licensee may be accepted into a current Beta Testing Program.

- a. If accepted into the Beta Testing Program, ESRI will provide to Licensee access to Beta and will grant Licensee a personal, nonexclusive, nontransferable, royalty-free license to use Beta at the authorized and identified test sites solely for the purpose of testing Beta as delivered, in accordance with the Beta Testing Program guidelines and the terms of this License Agreement. This grant of license is effective from the date accepted into the program or date of receipt of any Beta until the date of the commercial release of Software from ESRI Customer Service or the date of termination of the Beta Testing Program for the specific Beta, whichever is sooner.
- b. Licensee agrees to provide suggestions or comments regarding performance, usability or effectiveness, bug reports, test reports, or other feedback (collectively, "Feedback") to ESRI with respect to Beta. ESRI retains title to such comments and may freely use, disclose, reproduce, license, distribute, and otherwise commercialize any Feedback.
- c. Beta and Feedback contain confidential information and trade secrets that are proprietary to ESRI. Licensee agrees to use commercially reasonable means (at least as great as those used by Licensee for its own confidential information) to maintain the integrity, confidentiality, and ESRI proprietary rights in Beta and Feedback.
- d. Beta is subject to change prior to its commercial release or may never be commercially released. Licensee acknowledges that Beta is not suitable or licensed for full use in any production system and accepts all responsibility for use and any results generated.

**3.3 Evaluation License.** ESRI may from time to time offer Term License(s) for Software, Data, Web Services, or Documentation for Licensee's evaluation only.

**3.4 Consultant or Contractor Access.** Subject to Section 3.1, ESRI grants Licensee the right to provide access to and use of Software, Data, Web Services, or Documentation to any consultant or contractor of Licensee exclusively for the benefit of Licensee. Licensee shall be solely responsible for compliance by consultants and contractors with this License Agreement. Access to or use of Software, Data, Web Services, and Documentation by consultants or contractors not exclusively for the benefit of Licensee is prohibited.

**3.5 Educational Use License.** If Licensee has been qualified by ESRI or its authorized distributor to participate in an educational program, Licensee agrees to use Software, Data, Web Services, and Documentation solely for educational, research, and academic purposes that are noncommercial in nature. Licensee shall not use Software, Data, Web Services, and Documentation for any profit-generating activities.

## ARTICLE 4—SCOPE OF USE

### 4.1 Permitted Uses

- a. Licensee may install and store Software, Data, and Documentation on electronic storage device(s).
- b. Licensee may make one (1) copy of Software, Data, and Documentation for archival purposes. Licensee may make routine computer backups.
- c. Licensee may customize Software using any (i) macro or scripting language, (ii) published application programming interface (API), or (iii) source or object code libraries, but only to the extent that such customization is described in Documentation.
- d. Licensee may use, copy, or prepare derivative works of Documentation supplied in digital format and thereafter reproduce, display, and redistribute the customized documentation only for Licensee's own internal use. Portion(s) of Documentation supplied in digital format merged with other software and printed or digital documentation are subject to this License Agreement. Licensee shall include the following copyright attribution notice acknowledging the proprietary

rights of ESRI and its licensors: "Portions of this document include intellectual property of ESRI and its licensors and are used herein under license. Copyright © [Insert the actual copyright date(s) from the source materials] ESRI and its licensors. All rights reserved."

#### 4.2 Uses Not Permitted

- a. Except as provided herein, Licensee shall not sell, rent, lease, sublicense, lend, assign, or time-share Software, Data, Web Services, or Documentation. Licensee shall not act as a service bureau or commercial application service provider (ASP) that allows third-party access to Software, Data, Web Services, and Documentation. A commercial ASP means a Licensee who uses Software, Data, Web Services, or Documentation for a site or service and operates the site or the service for a profit or generates revenue by charging for access to the site or service.
- b. Licensee shall not redistribute Software, Data, or Web Services to unauthorized third parties, in whole or in part, including, but not limited to, extensions, components, or DLLs without the prior written approval of ESRI.
- c. Licensee shall not reverse engineer, decompile, or disassemble Software, Data, Web Services, or Documentation except to the extent that such activity is expressly permitted by applicable law notwithstanding this restriction.
- d. Except to the extent that applicable law prohibits this restriction, Licensee shall not make any attempt to circumvent the technological measure(s) that controls access to or use of Software, Data, Web Services, and Documentation.
- e. Licensee shall not redistribute Software registration number/license authorization file(s), developer license file(s), or Web Services access codes to unauthorized third parties without the prior approval of ESRI.
- f. Licensee shall not use Software or Web Services to transfer or exchange any material where such transfer or exchange is prohibited by intellectual property laws or any other applicable laws.
- g. Licensee shall not remove or obscure any ESRI or its licensors' patent, copyright, trademark, or proprietary rights notices contained in or affixed to Software, Data, Web Services, or Documentation.
- h. Licensee shall not unbundle individual or component parts of Software or Data for independent use.

#### ARTICLE 5—TERM AND TERMINATION

This License Agreement is effective upon acceptance. This License Agreement and any licenses granted hereunder shall continue until (i) such time that Licensee elects in writing to discontinue use of Software, Data, Web Services, or Documentation and terminates the license; (ii) expiration of a Term License; or (iii) either party terminates the license for a material breach that is not cured within ten (10) days of written notice to the other party, except that termination is immediate for a material breach of a nature that is impossible to cure. Upon termination of a license, Licensee shall (i) cease access and use of Web Services and clear Web Services client-side data cache and (ii) uninstall, remove, and destroy all Software, Data, and Documentation and any whole or partial copies, modifications, or merged portions in any form and execute and deliver evidence of such actions to ESRI or its authorized distributor.

#### ARTICLE 6—LIMITED WARRANTIES AND DISCLAIMERS

**6.1 Limited Warranties.** Except as otherwise provided in this Article 6, ESRI warrants that (i) the unmodified Software will substantially conform to the published Documentation and (ii) media on which the Software, Data, and Documentation is provided will be free from defects in materials and workmanship under normal use and service for a period of ninety (90) days from the date of receipt.

**6.2 Data and Web Services Disclaimer.** Data and Web Services may contain some nonconformities, defects, errors, or omissions. THE DATA AND WEB SERVICES ARE PROVIDED "AS IS" WITHOUT WARRANTY OF ANY KIND. Without limiting the generality of the preceding sentence, ESRI and its licensors do not warrant that Data and Web Services will meet Licensee's needs or expectations, that the use of Data and Web Services will be uninterrupted, or that all nonconformities can or will be corrected. ESRI and its licensors are not inviting reliance on Data or Web Services, and Licensee should always verify actual Data or Web Services.

**6.3 Special Disclaimer.** SAMPLES, HOT FIXES, EVALUATION SOFTWARE, AND BETA ARE DELIVERED "AS IS" WITHOUT WARRANTY OF ANY KIND. LICENSEE ASSUMES ALL RISK AS TO THE QUALITY AND PERFORMANCE OF THE SAMPLES, HOT FIXES, EVALUATION SOFTWARE, AND BETA.

**6.4 Internet Disclaimer.** BOTH PARTIES EXPRESSLY ACKNOWLEDGE AND AGREE THAT THE INTERNET IS A NETWORK OF PRIVATE AND PUBLIC NETWORKS AND THAT (i) THE INTERNET IS NOT A SECURE INFRASTRUCTURE, (ii) NEITHER PARTY HAS CONTROL OVER THE INTERNET, AND (iii) NEITHER PARTY IS LIABLE FOR DAMAGES UNDER ANY THEORY OF LAW RELATED TO THE DISCONTINUANCE OF

OPERATION OF ANY PORTION OF THE INTERNET OR POSSIBLE REGULATION OF THE INTERNET THAT MIGHT RESTRICT OR PROHIBIT THE OPERATION OF THE WEB SERVICE.

**6.5 General Disclaimer.** EXCEPT FOR THE ABOVE EXPRESS LIMITED WARRANTIES, ESRI DISCLAIMS ALL OTHER WARRANTIES OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, SYSTEM INTEGRATION, AND NONINFRINGEMENT OF INTELLECTUAL PROPERTY RIGHTS. ESRI DOES NOT WARRANT AND DISCLAIMS THAT SOFTWARE, DATA, WEB SERVICES, OR DOCUMENTATION WILL MEET LICENSEE'S NEEDS; THAT LICENSEE'S OPERATION OF THE SAME WILL BE UNINTERRUPTED, ERROR-FREE, FAULT-TOLERANT, OR FAIL-SAFE; OR THAT ALL NONCONFORMITIES CAN OR WILL BE CORRECTED. SOFTWARE, DATA, WEB SERVICES, AND DOCUMENTATION ARE NOT DESIGNED, MANUFACTURED, OR INTENDED FOR USE IN ENVIRONMENTS OR APPLICATIONS THAT MAY LEAD TO DEATH, PERSONAL INJURY, OR PHYSICAL PROPERTY/ENVIRONMENTAL DAMAGE. ANY SUCH USE SHALL BE AT LICENSEE'S OWN RISK AND COST.

**6.6 Exclusive Remedy.** Licensee's exclusive remedy and ESRI's entire liability for breach of the limited warranties set forth in this Article 6 shall be limited, at ESRI's sole discretion, to (i) replacement of any defective media; (ii) repair, correction, or a workaround for Software subject to the ESRI Support Services Policy; or (iii) return of the license fees paid by Licensee for Software or Documentation that does not meet ESRI's limited warranty, provided that Licensee uninstalls, removes, and destroys all copies of Software or Documentation and executes and delivers evidence of such actions to ESRI or its authorized distributor.

## ARTICLE 7—LIMITATION OF LIABILITY

**7.1 Disclaimer of Certain Types of Liability.** ESRI AND ITS LICENSORS SHALL NOT BE LIABLE TO LICENSEE FOR COSTS OF PROCUREMENT OF SUBSTITUTE GOODS OR SERVICES; LOST PROFITS, LOST SALES, OR BUSINESS EXPENDITURES; INVESTMENTS; BUSINESS COMMITMENTS; LOSS OF ANY GOODWILL; OR FOR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES ARISING OUT OF OR RELATED TO THIS LICENSE AGREEMENT OR USE OF SOFTWARE, DATA, WEB SERVICES, OR DOCUMENTATION, HOWEVER CAUSED ON ANY THEORY OF LIABILITY, WHETHER OR NOT ESRI OR ITS LICENSORS HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGE. THESE LIMITATIONS SHALL APPLY NOTWITHSTANDING ANY FAILURE OF ESSENTIAL PURPOSE OF ANY LIMITED REMEDY.

**7.2 General Limitation of Liability.** EXCEPT AS PROVIDED IN ARTICLE 8—INFRINGEMENT INDEMNITY, ESRI'S TOTAL CUMULATIVE LIABILITY HEREUNDER, FROM ALL CAUSES OF ACTION OF ANY KIND, INCLUDING, BUT NOT LIMITED TO, CONTRACT, TORT (INCLUDING NEGLIGENCE), STRICT LIABILITY, BREACH OF WARRANTY, MISREPRESENTATION, OR OTHERWISE, SHALL NOT EXCEED THE AMOUNTS PAID BY LICENSEE FOR SOFTWARE, DATA, WEB SERVICES, OR DOCUMENTATION PURSUANT TO THIS LICENSE AGREEMENT.

**7.3 Applicability of Disclaimers and Limitations.** Licensee agrees that the limitations of liability and disclaimers set forth in this License Agreement will apply regardless of whether Licensee has accepted Software, Data, Web Services, or Documentation or any other product or service delivered by ESRI. The parties agree that ESRI has set its prices and entered into this License Agreement in reliance on the disclaimers and limitations set forth herein, that the same reflect an allocation of risk between the parties, and that the same form an essential basis of the bargain between the parties. THESE LIMITATIONS SHALL APPLY NOTWITHSTANDING ANY FAILURE OF ESSENTIAL PURPOSE OF ANY LIMITED REMEDY.

## ARTICLE 8—INFRINGEMENT INDEMNITY

**8.1** ESRI shall defend, indemnify, and hold harmless Licensee from and against any loss, liability, cost, or expense, including reasonable attorneys' fees, which may be incurred by Licensee against any claims, actions, or demands by a third party alleging that Software infringes a U.S. patent, copyright, or trademark, provided

- a. Licensee promptly notifies ESRI in writing of the claim;
- b. Licensee provides documents clearly describing the allegations of infringement;
- c. ESRI has sole control of the defense of any actions and negotiations related to the defense or settlement of any claim; and

d. Licensee cooperates fully in the defense of the claim.

**8.2** If Software is found to infringe a U.S. patent, copyright, or trademark, ESRI, at its own expense, may either (i) obtain rights for Licensee to continue using Software or (ii) modify the allegedly infringing elements of Software while maintaining substantially similar software functionality or data/informational content. If neither alternative is commercially reasonable, the infringing item(s) shall be returned to ESRI, the license shall terminate, and Licensee shall uninstall the infringing items. ESRI's entire liability shall then be to indemnify Licensee pursuant to Section 8.1 and to refund license fees paid by Licensee for the infringing item(s), prorated on a five (5)-year, straight-line depreciation basis beginning from the initial date of delivery.

**8.3** ESRI shall have no obligation to defend Licensee or to pay any resulting costs, damages, or attorneys' fees for any claims or demands alleging direct or contributory infringement of Software by (i) the combination of or integration with a product, process, or system not supplied by ESRI; (ii) material alteration by anyone other than ESRI or contractors acting on behalf of ESRI; (iii) use after Licensee has been notified of possible infringement; or (iv) use after modifications are provided or a return is ordered by ESRI under Section 8.2.

**8.4** In no event shall the indemnification set forth in this Article 8 apply to any Samples, hot fixes, Beta, or evaluation software delivered hereunder.

THE FOREGOING STATES THE ENTIRE OBLIGATION OF ESRI WITH RESPECT TO INFRINGEMENT OR ALLEGATION OF INFRINGEMENT OF INTELLECTUAL PROPERTY RIGHTS OF ANY THIRD PARTY.

#### ARTICLE 9—GENERAL PROVISIONS

**9.1 Export Control Regulations.** Licensee expressly acknowledges and agrees that Licensee shall not export, reexport, transfer, or release Software, Data, Web Services, or Documentation, in whole or in part, to (i) any U.S. embargoed country (or to a national or resident of any U.S. embargoed country); (ii) any person on the U.S. Treasury Department's list of Specially Designated Nationals; (iii) any person or entity on the U.S. Commerce Department's Table of Denial Orders; or (iv) any person or entity where such export, reexport, or provision violates any U.S. export control laws or regulations including, but not limited to, the terms of any export license or licensing provision and any amendments and supplemental additions to U.S. export laws as they may occur from time to time.

**9.2 Taxes and Fees, Shipping Charges.** License fees quoted to Licensee are exclusive of any and all taxes or fees, including, but not limited to, sales tax, use tax, value-added tax (VAT), customs, duties, or tariffs, and shipping and handling charges.

**9.3 No Implied Waivers.** The failure of either party to enforce any provision of this License Agreement shall not be deemed a waiver of the provisions or of the right of such party thereafter to enforce that or any other provision.

**9.4 Severability.** The parties agree that if any provision of this License Agreement is held to be unenforceable for any reason, such provision shall be reformed only to the extent necessary to make the intent of the language enforceable.

**9.5 Successor and Assigns.** Licensee shall not assign, sublicense, or transfer Licensee's rights or delegate its obligations under this License Agreement without ESRI's prior written consent, and any attempt to do so without consent shall be void. This License Agreement shall be binding upon the respective successors and assigns of the parties to this License Agreement. Notwithstanding, a government contractor that has acquired Software, Data, Web Services, or Documentation under contract to the government may assign this License Agreement to its government customer upon written notice to ESRI, provided the government customer assents to the terms of this License Agreement.

**9.6 Survival of Terms.** The provisions of Articles 2, 5, 6, 7, 8, and 9 of this License Agreement shall survive the expiration or termination of this License Agreement.

**9.7 Equitable Relief.** Licensee agrees that any breach of this License Agreement by Licensee may cause irreparable damage and that, in the event of such breach, in addition to any and all remedies at law, ESRI shall have the right to seek an injunction, specific performance, or other equitable relief in any court of competent jurisdiction without the requirement of posting a bond or undertaking or proving injury as a condition for relief.

**9.8 Government Licensee.** Software, Data, Web Services, and Documentation are commercial computer software, commercial data, commercial computer software documentation, and commercial Web Services. This License Agreement

contains ESRI's commercial license terms and conditions for such items. The commercial license rights in this License Agreement strictly govern Licensee's use, reproduction, or disclosure of Software, Data, Web Services, and Documentation. No other license terms or conditions shall apply unless expressly agreed in writing by ESRI and Licensee. ESRI Software source code is unpublished, and all rights to Software, Data, Web Services, and Documentation are reserved under copyright laws of the United States. In the event any court, arbitrator, or board holds that the Licensee has greater rights to any portion of Software, Data, Web Services, or Documentation under applicable public procurement law, such rights shall extend only to the portions affected.

### **9.9 Governing Law, Arbitration**

- a. *Licensees in the United States of America, Its Territories, and Outlying Areas.* This License Agreement shall be governed by and construed in accordance with the laws of the State of California without reference to conflict of laws principles, except that U.S. federal law shall govern in matters of intellectual property. Except as provided in Section 9.7, any dispute arising out of or relating to this License Agreement or the breach thereof, which cannot be settled through negotiation, shall be finally settled by arbitration administered by the American Arbitration Association under its Commercial Arbitration Rules. Judgment on the award rendered by the arbitrator may be entered in a court of competent jurisdiction. If Licensee is a U.S. government agency, this License Agreement is subject to the Contract Disputes Act of 1978, as amended (41 U.S.C. 601–613), in lieu of the arbitration provisions of this clause. This License Agreement shall not be governed by the United Nations Convention on Contracts for the International Sale of Goods, the application of which is expressly excluded.
- b. *All Other Licensees.* Except as provided in Section 9.7, any dispute arising out of or relating to this License Agreement or the breach thereof, which cannot be settled through negotiation, shall be finally settled under the Rules of Arbitration of the International Chamber of Commerce by one (1) arbitrator appointed in accordance with said rules. The language of the arbitration shall be in English. The place of the arbitration shall be at an agreed-upon location. This License Agreement shall not be governed by the United Nations Convention on Contracts for the International Sale of Goods, the application of which is expressly excluded. Either party shall, at the request of the other, make available documents or witnesses relevant to the major aspects of the dispute.

**9.10 Maintenance.** Maintenance for qualifying Software or Data consists of updates and other benefits such as access to technical support, specified in ESRI's or its distributor's most current applicable software maintenance policy.

**9.11 Entire Agreement.** This License Agreement, including Exhibit 1, constitutes the sole and entire agreement of the parties as to the subject matter set forth herein and supersedes any previous license agreements, understandings, and arrangements between the parties relating to such subject matter. Additional or different terms included with an order or other document shall not be binding upon ESRI. Any modification(s) or amendment(s) to this License Agreement must be in writing and signed by each party.

**EXHIBIT 1  
SCOPE OF USE  
(E300 9/09B)**

ESRI, 380 New York St., Redlands, CA 92373-8100 USA • TEL 909-793-2853 • FAX 909-793-5953

The scope of use for the ESRI Software, Data, Web Services, and Documentation identified below is described in the applicable footnotes identified in parentheses.

**Desktop GIS**

- ArcReader (20 and 25)
- ArcView (1 or 2 and 25 and 44)
- ArcEditor (1 or 2 and 25, 26, and 44)
- ArcInfo (2, 25, 26, and 44)
- ArcGIS Desktop Extensions (7)
- ArcView 3.x and Extensions (1, 7, and 17)

**Server GIS**

- ArcGIS Server and Extensions
  - Workgroup (either 3 or 5 and 8, 9, 25, 28, 29, 30, 32, 38, 39, 40, and 45)
  - Enterprise (either 3, 4, or 5 and 8, 9, 25, 27, 31, 38, 39, 40, and 45)
  - ArcGIS Server Geoportals Extension (either 4 or 5 and 7, 47, and 52)
- ArcIMS
  - ArcIMS and Extensions (either 3, 4, or 5 and 8, 10, and 31)
  - ArcIMS ArcMap Server (either 3, 4, or 5 and 31)
- Tracking Server (either 4 or 5 and 31)
- ArcGIS Server Image Extension (either 3, 4, or 5 and 8, 31, and 42)
  - ArcGIS Server Image Extension Service Editor (1)
- RouteMAP IMS (either 3, 4, or 5 and 8, 25, and 31)
- ESRI Business Analyst Server (5, 8, 9, 21, 25, 28, 31, 39, 40, 45, and 48)

**Mobile GIS**

- ArcPad (1, 12, 13, and 25)
- ArcPad Application Builder (1 and 25)
- ArcGIS Mobile Deployments (1, 15, 16, and 25)

**Developer GIS**

- ESRI Developer Network (EDN) Software, Web Services, and Data (6, 7, 24, 25, 26, 34, 35, and 36)
- ArcGIS Engine Developer Kit and Extensions (1 and 14, 15, 22, 25, 26, and 43)
- ArcGIS Engine Runtime and Extensions (1, 15, 22, 25, and 26)
- MapObjects—Windows Edition (1, 14, 15, 16, and 18)
- MapObjects—Java Edition (1, 5, 8, 15, 18, and 19)
- MapObjects LT (1, 14, and 16)
- NetEngine (1, 5, and 15)

- NetEngine Internet (5)
- ESRI Business Analyst Server Developer (6, 25, 35, and 51)

**GIS Viewers and Connectors**

- MapIt (11, 25, 31, 35, 49, and 50)
- ArcExplorer—Java and Windows Editions (20 and 25)
- ArcGIS Explorer (20 and 25)
- ArcGIS for AutoCAD (1, 20, and 25)
- Geoportals Clients for ArcGIS (7, 20, and 52)

**Business GIS**

- ESRI Business Analyst (1 or 2 and 25, 45, and 48)
- BusinessMAP (1 and 25)
- ArcLogistics (either 1 or 2 and 25)
- ArcLogistics Server (5, 8, 9, 21, 25, 28, 39, 40, and 45)
- ArcLogistics Navigator (1, 25, and 46)
- ArcLogistics Navigator Deployments (1, 15, and 16)

**Cartographic Production**

- Maplex (1)
- Production Line Tool Set (PLTS) for ArcGIS, GIS Data ReViewer, Map Production System—Atlas, Job Tracking for ArcGIS (JTX) (either 1 or 2), Job Tracking for ArcGIS Server (either 4 or 5 and 7)

**Web Services**

- ArcGIS Online (6, 25, 33, 34, and 35)

**Data**

- ESRI Data and Maps (either 1 or 5 and 23 and 37)
- ESRI Data (either 1, 2, or 5 and 25 and 48)
  - Demographic, Consumer Spending, Market Potential, Retail MarketPlace, Business, Traffic, Shopping Center, Cable Boundaries, Banking, and Crime
- Tapestry Segmentation (either 1, 2, or 5 and 21 and 48)
- Address Coder (either 1, 2, or 5 and 21, 22, 25, and 48)
- Sourcebook•America (1 and 21)
- ArcGIS Data Appliance (6, 23, 25, and 41)
- StreetMap Premium (either 1, 2, 4, or 5 and 6, 23, and 25)

1. "Single Use License." Licensee may permit a single authorized end user to install and use the Software, Data, and Documentation on a single computer for use by that end user on the computer on which the Software is installed. Remote access is not permitted. Licensee may permit the single authorized end user to make a second copy for end user's exclusive use on a portable computer as long as only one (1) copy of the Software, Data, and Documentation is in use at any one (1) time.
2. "Concurrent Use License." Licensee may install and use the Software, Data, and Documentation on computer(s) on a network, but the number of simultaneous users may not exceed the number of licenses acquired.
3. "Development Server License." Licensee may install and use the Software on a single computer to design and build applications that interface with or utilize server Software as described in the Documentation.
4. "Staging Server License." In addition to the Development Server License rights, Licensee may use and install the Software for the following purposes: user acceptance testing, performance testing, load testing of other third-party software, staging new commercial data updates, and training activities.
5. "Deployment Server License." In addition to the Staging Server License rights, Licensee may install and use the Software or Data to provide services to multiple users on the same or other computer(s).
6. Provided only as a Term License.
7. Extensions to Software programs follow the same scope of use as that granted for the corresponding Software programs.
8. The administration tools for the Software may be copied and redistributed throughout Licensee's organization.
9. User-developed ArcGIS Server administration tools may be copied throughout Licensee's organization, but the ArcCatalog application (found in ArcGIS Desktop) may not be copied.
10. The ArcIMS license includes the right to deploy MapObjects—Windows Edition applications on the Internet or intranet. Licensee shall not develop client/server solutions with the ArcIMS Java Archive (JAR) files without a license for the MapObjects—Java Edition Developer Kit.
11. Licensee may install and use the Software to provide services to multiple users on the same or other computer(s). The Software is licensed per server. The licensed server is the server on which Licensee installs the Spatial Data Service.
12. ArcPad SOFTWARE IS NOT LICENSED FOR NAVIGATIONAL USE.
13. "Dual Use License" means the Software may be installed on a desktop computer and used simultaneously with either a personal digital assistant (PDA) or handheld mobile computer as long as the Software is only used by a single individual at any one (1) time.
14. Developers must include the following attribution with any deployed MapObjects application: "Portions of this computer program are owned by LizardTech, Inc., and are Copyright © 1995–2002 LizardTech, Inc., and/or the University of California. All rights reserved. U.S. Patent No. 5,710,835."
15. Deployment licenses for desktop or Internet application(s) may be subject to payment of additional license fees.
16. Licensee may deliver applications to its sublicensee(s) provided Licensee uses a written sublicense agreement that protects ESRI's rights in its Software, Data, Web Services, and Documentation to the same extent as the ESRI License Agreement including, but not limited to, the following terms:
  - a. Sublicensee may not reverse engineer, decompile, or disassemble the ESRI Software, Data, Web Services, or Documentation, except to the extent permitted by applicable law; copy for commercial use; transfer; or assign its rights under the license grant;
  - b. Sublicensee may not use any ESRI Software, Data, Web Services, or Documentation, in whole or in part, separate from Licensee's executable application; and
  - c. Third-party dependent or required components are redistributable subject to permission from the owner or author.
17. Licensee may use Business Objects Crystal Reports software only with the ArcView 3.x Software with which it was acquired and subject to the Crystal Reports License Agreement available on the media. Licensee may not use a software program or system to cache or queue report requests.
18. The deployment license is per application per computer.
19. The MapObjects—Java Edition contains Java Archive files, which indicate they are authentic ESRI-certificated files when used over the Internet. Licensee shall not use ESRI certification or reference ESRI as a source of trusted content in any modified MapObjects Java Archive files. Licensee may deploy the unmodified Java class ESRI certified libraries as an integral part of the Licensee's application(s).
20. Licensee may reproduce and deploy the Software provided all the following occur: (a) The Software is reproduced and deployed in its entirety; (b) a license agreement accompanies each copy of the Software that protects the Software to the same extent as the ESRI License Agreement, and the recipient agrees to be bound by the terms and conditions of the license agreement; (c) all copyright and trademark attributions/notices are reproduced; and (d) there is no charge or fee attributable to the use of the Software.

21. Licensee shall not withhold any substantial right (e.g., extension of credit) from any individual based solely on the individual's place of residence, as profiled in the Tapestry Segmentation system.
  22. (a) ArcGIS Engine Runtime licenses shall not be used for Internet and Server development and deployment. (b) An end user must license either ArcGIS Engine Runtime Software or other ArcGIS Desktop Software (ArcView, ArcEditor, or ArcInfo) to obtain the right to run an ArcGIS Engine application on one (1) computer. (c) The ArcGIS Engine Runtime extensions shall not be used in combination with ArcGIS Desktop Software to run ArcGIS Engine applications. A single user can have multiple applications installed on one (1) computer for use only by that end user.
  23. Licensee may redistribute the Data as described in the Redistribution Rights Matrix available at <http://www.esri.com/legal/>, in the Help system, or in supporting metadata files, subject to the specific attribution descriptions and requirements for the dataset accessed.
  24. EDN Software, Web Services, and Data may only be used by one (1) named developer per subscription solely for the purposes of research, development, testing, and demonstration of a prototype application. EDN Software and Data may be installed on multiple computers for use by any named EDN developer.
  25. Use of included third-party owned data shall be subject to the Use of Data Restrictions found at <http://www.esri.com/legal/> for the specific Data accessed. The Use of Data Restrictions may be modified by ESRI from time to time. If a modification is unacceptable to Licensee, Licensee may cancel a subscription upon written notice to ESRI, or discontinue use of the Data or Web Services, as applicable. If Licensee continues to use the Data or Web Services, Licensee will be deemed to have accepted the modification.
  26. An ArcSDE Personal Edition geodatabase is restricted to four (4) gigabytes of Licensee data.
  27. ArcGIS Server Web ADF Runtime Software may not be deployed independently of Licensee's ArcGIS Server Enterprise configuration.
  28. Limited to ten (10) concurrent end users of non ArcGIS Server applications. This restriction includes use of ArcGIS Desktop products, ArcGIS Engine products, and third-party applications that connect directly to any ArcGIS Server geodatabase. There are no limitations on the number of connections from Web applications.
  29. Can only be used with SQL Server 2005/2008 Express.
  30. Restricted to a maximum total of four (4) gigabytes of Licensee data.
  31. Redundant Software installation(s) for failover operations may be implemented during the period the primary site is nonoperational. The redundant Software installation(s) shall remain dormant, except for system maintenance and updating of databases, while the primary site or any other redundant site is operational.
  32. No redundant Software installation is permitted.
  33. a. ArcGIS Online may only be utilized in conjunction with the following Software:
    - i. ArcGIS Desktop
    - ii. ArcGIS Server (including the Web ADF)
    - iii. ArcGIS Mobile
    - iv. ArcGIS Explorer
    - v. ESRI Business Analyst Server Developer
    - vi. MapIt
    - vii. The ArcGIS APIs (including JavaScript™, Adobe® Flex®, and Microsoft® Silverlight™/WPF™).
  - b. Licensee's access and use of ArcGIS Online Standard Services shall be subject to Licensee's consent to the terms and conditions of ESRI Web Site and Service Terms of Use Agreement (G-577) found at <http://www.esri.com/legal/>.
  - c. ArcGIS Desktop Licensees that are current on maintenance may access and use Microsoft® Bing Maps™ subject to Licensee's consent to the terms and conditions of Bing Maps for ArcGIS Desktop Users Services Agreement (G-600) found at <http://www.esri.com/legal/>.
34. Licensee's organization is limited to the number of specified credits, transactions, geography, or number of users as described in the online product description.
  35. Licensed end users shall not share the client-side data cache derived from ArcGIS Online with other licensed end users or third parties.
  36. Licensee may not download or store resulting data or information except for results derived from using ArcWeb Services Address Manager.
  37. Data provided with StreetMap USA may be used for mapping, geocoding, and routing purposes but is not licensed for dynamic routing purposes. For instance, StreetMap USA may not be used to alert a user about upcoming maneuvers (such as warning of an upcoming turn) or calculating an alternate route if a turn is missed.

38. The ArcGIS Server 3D extension included with ArcGIS Server Standard (Workgroup or Enterprise) may only be used for generating globe data cache(s) or publishing a globe document as an ArcGIS Globe Service. No other use of the ArcGIS Server 3D extension Software is permitted with ArcGIS Server Standard.
39. Any editing functionality included with ArcGIS Server is not permitted for use with ArcGIS Server Basic (Workgroup or Enterprise).
40. Geospatial Enterprise JavaBeans (EJB) provided with ArcGIS Server (Workgroup or Enterprise) are permitted for use only with ArcGIS Server Advanced.
41. Licensee may only use Data from a single state with the Single State version of ArcGIS Data Appliance. This restriction applies to a large-scale (i.e., scale levels below 1:100,000) street map, transportation layer, boundaries and places layer, and one (1)-meter or better resolution imagery included in the USA Collection. This restriction does not apply to the small-scale (i.e., scale levels above 1:100,000) maps provided in the World Collection, which are intended for display at global and regional scales.
42. Licensee has the right to one (1) desktop deployment of the ArcGIS Server Image extension Service Editor for every four (4) cores of ArcGIS Server Image extension that is licensed. Additional Service Editor desktop deployments can be licensed for an additional fee.
43. Licensee may develop an unlimited number of applications on a single computer and deliver the applications to end users with or without the Engine Runtime Software.
44. For any operating system environment in which Licensee runs instances of the Concurrent Use license management software, Licensee may run up to the same number of passive failover instances of the Concurrent Use license management software in a separate operating system environment for temporary failover support.
45. Data licensed with ESRI Business Analyst and ESRI Business Analyst Server are restricted to use with the respective Business Analyst extension and are not for general use with ArcGIS Desktop or ArcGIS Server Software.
46. Licensee should not follow any route suggestions that appear to be hazardous, unsafe, or illegal. Licensee assumes all risk of using this navigation Software.
47. Licensee may only use the Software in conjunction with a minimum of ArcGIS Server Standard Enterprise.
48. Licensee may include reports and maps created from the Software or Data in hard-copy or read-only formats for presentation packages or marketing studies for subsidiaries and customers. The total content of the ESRI reports and maps must be less than twenty percent (20%) of Licensee's total content of the presentation package or marketing study. Full, complete, stand-alone reports or maps created from the Software or Data and not part of a presentation package or marketing study cannot be resold, sublicensed, or otherwise transferred without prior, written permission of ESRI. Licensee's third-party customer may only receive reports and maps generated by Licensee and may only use the maps and reports received from Licensee for internal purposes. In no case shall Licensee redistribute the Data in digital formats.
49. ESRI MapIt Silverlight Web or WPF applications may not be deployed independent of Licensee's MapIt deployment configuration.
50. Licensee has the right to one (1) desktop deployment of the Spatial Data Assistant for each ESRI MapIt Server License.
51. ESRI Business Analyst Server Developer and Data may only be installed on one (1) server per license solely for the purposes of research, development, testing, and demonstration of a prototype application.
52. Source code is the intellectual property of ESRI. Licensee's access to and use of any source code file identified as "Software" in a README file or at <http://www.esri.com/legal/> should be treated as a trade secret for Licensee's own internal use only and not for further redistribution or access by unlicensed third parties. Licensee shall not modify the Software, Documentation, Data, or source code to incorporate, embed, link, or otherwise include any code, libraries, or data licensed or distributed under an open source licensing or distribution models similar to Free Software Foundation's GNU's General Public License (GPL) or GPL-compliant licenses, including, without limitation, the Artistic License (e.g., Perl), the Mozilla Public License, the Netscape Public License, and the Sun Community or Industry Standards License, that could require a user to make its proprietary source code available to a requesting third party.

## ***New Mexico Mapping Detail – further detail on budget estimates***

### **RFP Management**

A. Sandoval – this figure was based salary at a percentage. 8% for the first year.  
Approximate salary 79,568 (excluding benefits)

### **DoIT Project Manager**

N. Behrman – this figure was based salary at a percentage. 15% for the first year, and 15% for year two. Approximate salary 95,150 (excluding benefits)

### **DoIT Compliance, QA, IV&V**

V. Gottlieb – this figure was based on salary at a percentage. 56% for the first year, and 29% the second year. Approximate salary 80,306 (excluding benefits)

### **DoIT Federal Reporting**

V. Gottlieb – this figure was based on salary at a percentage. 20% for the first year, and 20% the second year. Approximate salary 80,306 (excluding benefits)

### **DoIT Fiscal Oversight**

Anticipated term position. Based on salary of 74,089 (Financial Manager). 100% first year, 66% second year.

### **DoIT Website Setup/Maintenance**

T. Buck – this figure was based on salary at a percentage. 44% for the first year, and 17% the second year. Approximate salary 73,082 (excluding benefits)

### **DoIT Surveying**

TBD - Based on salary of 74,089 (IT Network Specialist). 8% first year, 8% second year.

### **DoIT Data Analysis & GIS Oversight**

TBD - Based on salary of 74,089 (IT Network Specialist). 18% first year, 8% second year.

### **PRC Liaison**

#### **State GeoSpatial Liaison**

#### **UNM EDAC Liaison**

#### **UNM BBER Liaison**

TBD - Based on salary of 90,000. 5% first year, 5% second year.

### **Procurement**

TBD - Based on salary of 66,924 (Procurement Manager). 4% first year, 19% second year.

**Benefits** – Approximately 35% of salaries.

**Travel**

Attend annual GIS training/conf. \$3000 per employee including mileage and per diem.  
(ESRI Annual User Conf. in CA, ESRI Gov. Conf. in VA)

9 in state trips per quadrant of the state at \$83.33. per night (state per diem rate) per year.  
Using State vehicle not included.

**Hardware**

2 GIS servers, 1 web server, 1 database server. See attached docs for further info.

**Software**

Based on ESRI estimates. See attached docs for further info.

**Independent Data Purchases**

DoIT and its contractor will be assigned a budget for high-cost data packages that will be required as part of multi-source and verifiable broadband data collection and analysis.

**GIS Training**

See attached docs for further detail.

## ***New Mexico Planning Detail – further detail on budget estimates***

### **DoIT Project Manager**

N. Behrman – this figure was based salary at a percentage. 3% per year. Approximate salary 95,150 (excluding benefits)

### **DoIT Compliance, QA, IV&V**

V. Gottlieb – this figure was based on salary at a percentage. 8% for the first year, and 4% the second year. Approximate salary 80,306 (excluding benefits)

### **DoIT Federal Reporting**

V. Gottlieb – this figure was based on salary at a percentage. 10% for the first year, and 10% the second year. Approximate salary 80,306 (excluding benefits)

### **DoIT Fiscal Oversight**

Anticipated term position. Based on salary of 74,089 (Financial Manager). 14% second year.

### **DoIT Website Setup/Maintenance**

T. Buck – this figure was based on salary at a percentage. 3.5% for the first year, and 3.5% the second year. Approximate salary 73,082 (excluding benefits)

### **DoIT Surveying**

TBD - Based on salary of 74,089 (IT Network Specialist). 9% first year, 4% second year.

### **DoIT Data Analysis & GIS Oversight**

TBD - Based on salary of 74,089 (IT Network Specialist). 4% first year, 4% second year.

### **PRC Liaison**

#### **State GeoSpatial Liaison**

#### **UNM EDAC Liaison**

#### **UNM BBER Liaison**

TBD - Based on salary of 90,000. 2% first year, 1.5% second year.

### **Procurement**

TBD - Based on salary of 66,924 (Procurement Manager). Less than 1% per year.

**Benefits** – Approximately 35% of salaries.

### **Travel, workshops, and meetings**

Attend annual GIS training/conf. \$3000 per employee including mileage and per diem. (ESRI Annual User Conf. in CA, ESRI Gov. Conf. in VA)

12 in state trips per quadrant of the state at \$83.33 per night (state per diem rate) per year.  
Using State vehicle not included.

**Materials & supplies**

Miscellaneous office supplies.

**Office Space**

469 sq. ft. @ \$20 per sq. ft.
