7. Please describe how your Public Computer Center(s) promotes economic recovery in your area, such as through providing job training, access to job searches, online course offerings, certifications and the like (600 words or less).
As of the end of 2010, our PCC is targeting economic growth by providing individuals with educational classes that help in teaching access to the Internet, computer skills, obtaining GED's for better job opportunities, establishing IDA's (Individual Development Accounts) which promotes higher education, business start up, and/or purchasing of a home. With access to these and other programs in the future, individuals will have better opportunities to succeed through better job placement, due to better skills and education.

8. To the extent that you have made any subcontracts or sub grants, please provided the number of subcontracts or sub grants that have been made to socially and economically disadvantaged small business (SDB) concerns as defined by section 8(a) of the Small Business Act, 15 U.S.C. 647, as modified by NTIA's adoption of an alternative small business size standard for use in BTOP. Please also provide the names of these SDB entities (150 words or less).

Expert Computer Solutions, ABBA Technologies

9. Please describe any best practices / lessons learned that can be shared with other similar BTOP projects (900 words or less).

The Santa Fe Civic Housing Authority has recognized that with the help of other non-profit organizations, government agencies, educational resources, and community outreach programs, individuals can have access to education and resources that will enable them to obtain better job/life skills. This in turn will promote economic growth. We recommend that other BTOP projects take advantage of all the other resources provided in their cities and states. Our association with the Santa Fe Community College has brought in additional users to our new PCC, through advertising by SFCC in their registration fliers.
