**CERTIFICATION REGARDING LOBBYING
LOWER TIER COVERED TRANSACTIONS**

Applicants should review the instructions for certification included in the regulations before completing this form. Signature on this form provides for compliance with certification requirements under 15 CFR Part 28, "New Restrictions on Lobbying."

LOBBYING As required by Section 1352, Title 31 of the U.S. Code, and implemented at 15 CFR Part 28, for persons entering into a grant, cooperative agreement or contract over \$100,000 or a loan or loan guarantee over \$150,000 as defined at 15 CFR Part 28, Sections 28.105 and 28.110, the applicant certifies that to the best of his or her knowledge and belief, that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

(3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure occurring on or before October 23, 1996, and of not less than \$11,000 and not more than \$110,000 for each such failure occurring after October 23, 1996.

Statement for Loan Guarantees and Loan Insurance The undersigned states, to the best of his or her knowledge and belief, that:

If any funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this commitment providing for the United States to insure or guarantee a loan, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

Submission of this statement is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required statement shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure occurring on or before October 23, 1996, and of not less than \$11,000 and not more than \$110,000 for each such failure occurring after October 23, 1996.

As the duly authorized representative of the applicant, I hereby certify that the applicant will comply with the above applicable certification.

Attachment B – Proposed Middle Mile Service Offerings

Please complete the table below describing the service offerings that will be available indicating the bandwidth packages, the distance band (length of the network section) or point-to-point (geographical end points) of the specific package, the minimum peak load bandwidth that is available on the route, and the monthly or yearly pricing for the services. The chart may be adapted to adequately describe the service offerings of the project as long as the information described is included. If different packages will be available based on the area that will be receiving the benefits, then separate charts should be developed indicating which are the services for each area.

Zito Media Communications provides the following Telecommunication services to Commercial and Enterprise customers:

INTERNET ACCESS:

Zito business class delivery of Internet access is provided only through fiber optic transport to the customer premises. Service is measured in Megabits/second (MEG) and delivered in a symmetrical format allowing the same data speed rate for download and uploading. We directly connect the customer to Tier 1 International backbones resulting in the lowest latency available in our market serving areas. In addition to redundant connections to these backbones, we offer both lateral and ringed optical connections to the customer’s data center or telecommunication environment. Service is available in symmetrically delivered speeds from 10 MEG through 100 MEG in 10 MEG increments. Higher speeds are available. We provide static IP addresses and support for BGP sessions in larger projects.

VOICE:

Zito offers full business class digital voice transmissions of Local, Long Distance, Toll Free and International calling, both inbound and outbound. Connections to the customer can range from legacy T-1 type trunking, standard line and trunk delivery to modern SIP interfacing. We also provide supporting services for E911 setup, directory listings and CNAM.

POINT TO POINT DATA:

Zito can support optical fiber LAN or WAN type connections throughout our multi-County and Regional network via our redundant metro rings, hubs and gateways. These circuits can be provisioned at 10, 100 or 1,000 MEG and higher, resulting in significantly higher speeds than currently available through legacy type systems. Hand-offs to the customer can be optical or copper through standard interfaces.

VIRTUAL PBX:

Customers now have an option when it comes to replacing their premise based telephone system. The Zito VPBX system can provide a full turnkey advanced digital telephone system without the customer incurring upfront capital costs. This system is managed through an online web interface allowing the advanced feature sets of a large corporate PBX to be accessed and modified directly by the customer in real time. Features include IVR, expansive hunting group arrangements, fax to email, conference bridges and immediate access to all call history. This system can be installed in multiple physical locations with the ability to call inter-site with 3 or 4 digit dialing while not incurring local or long distance charges. Trucking limitations disappear as the system will allow each phone to make or receive calls at the same time.

CO-LOCATION and DATA BACKUP:

Customers may choose to house their backup servers in our protected head-end facility for redundancy or, Zito can provide terabits of storage backup for the customer to back-up their data on a nightly basis.

EMAIL and WEB HOSTING:

Customers may choose Zito to provide email services and hosting services for their web applications.

PROFESSIONAL SERVICES:

Zito can provide advanced network support to assist the customer with their WAN operations. Service description is created on a case by case basis.

There will be no restrictions on use in compliance with all of the required nondiscrimination and interconnection obligations under this application. This project brings substantial potential benefits to the critical community organizations and public safety agencies within the region. Such benefits include: (1) the ability to tie critical community organizations and public safety agencies to surrounding satellite facilities with high speed (100-1000 mbps) connections; (2) connecting multiple critical community organizations and public safety agencies together for the purpose of sharing various overhead functions or software capabilities; and (3) the use of a hosted pbx solution in order to avoid hundreds of thousands of dollars for pbx upgrades.

Because the Zito network has been engineered so that relatively small locations can be served with fiber, the network can also be accessed by other social service organizations. For example, the Zito network in Pennsylvania currently ties together ten locations of an organization that provides mental health services for residents in a three county area of Pennsylvania. Zito is also currently negotiating an agreement with another social service organization which provides services throughout a two county area of northern Pennsylvania.

Over time, this project will benefit the residents of this region in many ways. Schools, libraries, hospitals, public safety agencies and other critical community organizations are just beginning to realize the tremendous potential benefits that high bandwidth connectivity can bring to their organizations and to the residents whom they serve. Zito is already helping to realize this potential in northern Pennsylvania. This project will help the residents of another region to begin the process of realizing the benefits which such a network can bring.

ATTACHMENT H – Broadband Subscriber Estimates

Instructions: Using the table below, please estimate the number of subscribers for each distinct type of service offering on a quarterly basis over the five year forecast period. Combine all service pricing tiers of broadband data services into a single service offering. The subscriber projections must be described separately by the type of services offered, and by type of entity (households, businesses, "strategic institutions" i.e., critical community facilities, community anchor institutions, and public safety entities) to which services are offered. For last mile subscribers, please also provide, on a separate sheet, your estimated take rate (the percentage of total customers passed who will subscribe to your service), along with a brief description of the methodology used to forecast these subscribers/take rates. Middle mile applicants should indicate their subscriber forecasts in terms of the entities served via the last mile service providers, community anchor institutions, or public safety entities that are connected to their middle mile network. Middle mile applicants should also provide a reasoned basis for these subscriber forecasts (e.g., agreements in principle with existing or planned last mile service providers, market studies, etc).

In order to estimate the number of residential customers in the markets covered by this application, Zito has drawn on its experience in similar residential markets in Pennsylvania. Generally, these markets can be divided into two categories: (1) those markets where Zito was the first provider of broadband internet services for the entire market and was able to maintain that position for a lengthy period of time and (2) those markets where a DSL offering was available to at least a portion of the market before Zito was able to launch its own broadband offering. Generally, Zito has been able to attain penetration in the first type of market that is roughly twice the penetration that it has been able to gain in the second type of market. Since a number of the residential communities which are covered by this application are served at least partially by the local exchange company's DSL offering, management believes that the most reasonable market share assumption in these markets is one consistent with the above category (2)--that is, markets where Zito is not the initial provider. Consequently, this is the assumption made in our application.

In order to estimate the number of nonresidential locations served, Zito has used data from the United States Census which provides the number of nonresidential locations by community. Zito management then used market share approximations from Pennsylvania markets where the company has been marketing for the last eighteen months for most of the communities covered by this application. Zito did, however, reduce this market share assumption for some of the larger communities covered by the application in order to appropriately adjust for a greater level of competition in those communities either from the ILEC or, in some very limited instances, from other competitive telecom providers. Zito believes these assumptions are conservative for the following reasons: (1) this market share has been reached in our initial markets in only eighteen months; the company does not reach this market share in our projections until the end of three years, a period which is twice as long; (2) the company has gained experience and is better positioned to properly market its services to these new communities; (3) the company has reduced its market share assumptions in larger communities which could be more competitive; and (4) these projections do not assume any business at all from certain business segments such as serving the wireless provider market, a segment of the market which Zito believes will eventually be a strong revenue generator.

CERTIFICATION REGARDING LOBBYING

Applicants should also review the instructions for certification included in the regulations before completing this form. Signature on this form provides for compliance with certification requirements under 15 CFR Part 28, "New Restrictions on Lobbying." The certifications shall be treated as a material representation of fact upon which reliance will be placed when the Department of Commerce determines to award the covered transaction, grant, or cooperative agreement.

LOBBYING

As required by Section 1352, Title 31 of the U.S. Code, and implemented at 15 CFR Part 28, for persons entering into a grant, cooperative agreement or contract over \$100,000 or a loan or loan guarantee over \$150,000 as defined at 15 CFR Part 28, Sections 28.105 and 28.110, the applicant certifies that to the best of his or her knowledge and belief, that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

(3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly. This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into.

Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure occurring on or before October 23, 1996, and of not less than \$11,000 and not more than \$110,000 for each such failure occurring after October 23, 1996.

As the duly authorized representative of the applicant, I hereby certify that the applicant will comply with the above applicable certification.
